1ST SESSION

H. RES. 354

Expressing condemnation for police brutality wherever in the world it occurs.

IN THE HOUSE OF REPRESENTATIVES

MAY 2, 2023

Ms. OMAR (for herself, Ms. PRESSLEY, Mr. POCAN, and Mr. GRIJALVA) submitted the following resolution; which was referred to the Committee on the Judiciary, and in addition to the Committee on Foreign Affairs, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned

RESOLUTION

Expressing condemnation for police brutality wherever in the world it occurs.

Whereas, in recent years, there have been significant peaceful assemblies protesting against police brutality throughout the world, including in the United States;

Whereas police brutality may include human rights violations such as the use of excessive force, extrajudicial killings, arbitrary detention, torture, and the use of lethal rounds and the unnecessary use of “less-lethal” crowd control weapons by law enforcement, in response to peaceful assemblies;

Whereas police brutality may occur prior to an arrest, during crowd control operations, during an arrest, and while an individual is in custody;

Whereas the Small Arms Survey identified that between 2007–2012, 19,000 people worldwide were killed by police annually;

Whereas a 2017 United Nations Development Program report found that more than 70 percent of individuals who had joined violent extremist groups across Africa self-reported that “government action”, including police brutality, was the determining factor in their decision to join such groups;

Whereas the United States is the largest arms exporter in the world, including as the top provider to 13 out of 19 countries in the Middle East;

Whereas the United States is the largest developer and exporter of “less-lethal” weapons, including tear gas, in the world;

Whereas the United States, especially under the auspices of the wars on drugs and global terrorism, has in recent decades dramatically increased its influence on the tactics, equipment, and purpose of policing around the world;

Whereas, during that same period and under those same auspices, domestic police forces at the State, local, and Federal level have become increasingly militarized in both equipment and tactics;

Whereas several United States embassies in Africa released statements in the aftermath of the May 25, 2020, police killing of Minneapolis resident George Floyd, explicitly

recognizing the foreign policy dimension of domestic police violence;

Whereas many of those statements included reminders of the importance of an impartial judicial system and accountability for state security forces who commit human rights violations;

Whereas, on a global scale, police brutality occurs on every continent, in both democracies and dictatorships, and in countries that are both partners and adversaries of the United States;

Whereas, on a global scale, police brutality disproportionately harms already vulnerable people, including racial, ethnic, and religious minorities, women, migrants, people with disabilities, and members of the LGBTQIA+ community; and

Whereas, on a global scale, impunity for both individual police officers and departments or units who commit police brutality is an endemic problem: Now, therefore, be it
