20 **SEC. 3. FINDINGS AND SENSE OF CONGRESS ON HEALTH**
21 **AND CLIMATE CHANGE.**

22 (a) **FINDINGS.**—Congress finds that, according to the
23 assessment of the United States Global Change Research
24 Program entitled “The Impacts of Climate Change on

1 Human Health in the United States: A Scientific Assess-
2 ment” and dated 2016—

3 (1) the impacts of human-induced climate
4 change are increasing nationwide;

5 (2) rising greenhouse gas concentrations result
6 in increases in temperature, changes in precipitation,
7 increases in the frequency and intensity of some ex-
8 treme weather events, and rising sea levels;

9 (3) the climate change impacts described in
10 paragraph (2) endanger our health by affecting—

11 (A) our access to care, food, and water
12 sources;

13 (B) the air we breathe;

14 (C) the weather we experience; and

15 (D) our interactions with the built and
16 natural environments; and

17 (4) as the climate continues to change, the risks
18 to human health continue to grow.

19 (b) SENSE OF CONGRESS.—It is the sense of Con-
20 gress that—

21 (1) climate change poses threats to the United
22 States and globally through its impacts on society,

1 (2) climate change health threats are growing
2 in scale and severity;

3 (3) climate change disproportionately affects in-
4 dividuals in the United States who are economically
5 disadvantaged, belong to communities of color, or
6 have other social and health vulnerabilities;

7 (4) the health care sector accounts for 8.5 per-
8 cent of United States emissions, further worsening
9 the overall health impacts of climate change; and

10 (5) the Federal Government, working with
11 international, State, Tribal, and local governments,
12 nongovernmental organizations, businesses, and indi-
13 viduals, should use all practicable means and meas-
14 ures—

15 (A) to deploy a whole-of-government and
16 whole-of-health approach to protect our collec-
17 tive health from the impacts of climate change
18 and to mitigate environmental health impacts
19 from health sector operations;

20 (B) to build a just health care ecosystem
21 where all Americans have access to dignified,
22 high-quality care in their communities;

23 (C) to ensure the health care system is re-
24 silient to extreme weather and can continue to
25 provide care before, during, and after crises;

1 (D) to lead the health sector to
2 decarbonize its facilities and operations in an
3 equitable and just manner;

4 (E) to empower a thriving health work-
5 force with good, high-wage union jobs and to
6 recognize the value of all of the essential work-
7 ers that enable high-quality health care; and

8 (F) to invest in, empower, and build safe,
9 strong, and resilient communities.
