

Union Calendar No. 595

118TH CONGRESS
2D SESSION

H. R. 8958

[Report No. 118-701]

To reauthorize the National Aeronautics and Space Administration, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

JULY 9, 2024

Mr. LUCAS (for himself, Ms. LOFGREN, Mr. BABIN, and Mr. SORENSEN) introduced the following bill; which was referred to the Committee on Science, Space, and Technology

SEPTEMBER 23, 2024

Reported with an amendment, committed to the Committee of the Whole House on the State of the Union, and ordered to be printed

[Strike out all after the enacting clause and insert the part printed in *italic*]

[For text of introduced bill, see copy of bill as introduced on July 9, 2024]

A BILL

To reauthorize the National Aeronautics and Space
Administration, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
 2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE; TABLE OF CONTENTS.**

4 (a) *SHORT TITLE.*—*This Act may be cited as the*
 5 *“NASA Reauthorization Act of 2024”.*

6 (b) *TABLE OF CONTENTS.*—*The table of contents for*
 7 *this Act is as follows:*

Sec. 1. Short title; table of contents.

Sec. 2. Definitions.

TITLE I—AUTHORIZATION OF APPROPRIATIONS

Sec. 101. Fiscal year 2025.

TITLE II—EXPLORATION

Sec. 201. Continuity of purpose for space exploration.

Sec. 202. Artemis program.

Sec. 203. Reaffirmation of the Space Launch System.

Sec. 204. Human-rated lunar landing capabilities.

Sec. 205. Advanced spacesuit capabilities.

TITLE III—SPACE OPERATIONS

Sec. 301. Report on continued United States presence in low earth orbit.

Sec. 302. International Space Station.

Sec. 303. Nongovernmental missions on the International Space Station.

Sec. 304. Report on suborbital crew missions.

Sec. 305. United States deorbit capabilities.

Sec. 306. Commercial low-earth orbit development.

Sec. 307. Risk of losing access to low-earth orbit.

Sec. 308. Maintenance of service for International Space Station.

Sec. 309. Orbital debris research and development.

Sec. 310. Restriction on Federal funds relating to certain Chinese space and sci-
entific activities.

TITLE IV—SPACE TECHNOLOGY

Sec. 401. SBIR phase II flexibility.

Sec. 402. Lunar power purchase agreement program.

Sec. 403. Cryogenic fluid valve technology review.

Sec. 404. Lunar communications.

Sec. 405. Celestial time standardization.

TITLE V—AERONAUTICS

Sec. 501. Definitions.

Sec. 502. Experimental aircraft demonstrations.

Sec. 503. Hypersonic research.

- Sec. 504. Advanced materials and manufacturing technology.*
- Sec. 505. Unmanned aircraft system and advanced air mobility.*
- Sec. 506. Advanced capabilities for emergency response operations.*
- Sec. 507. Hydrogen aviation.*
- Sec. 508. High-performance chase aircraft.*
- Sec. 509. Collaboration with academia.*
- Sec. 510. National student unmanned aircraft systems competition program.*
- Sec. 511. Decadal survey for national aeronautics research and priorities review.*
- Sec. 512. Making advancements in commercial hypersonics.*

TITLE VI—SCIENCE

- Sec. 601. Maintaining a balanced science portfolio.*
- Sec. 602. Implementation of science mission cost-caps.*
- Sec. 603. Reexamination of decadal surveys.*
- Sec. 604. Landsat.*
- Sec. 605. Private earth observation data.*
- Sec. 606. Commercial satellite data.*
- Sec. 607. Greenhouse gas emission measurements.*
- Sec. 608. NASA data for agricultural applications.*
- Sec. 609. Planetary science portfolio.*
- Sec. 610. Planetary defense.*
- Sec. 611. Lunar discovery and exploration.*
- Sec. 612. Commercial lunar payload services.*
- Sec. 613. Planetary and lunar operations.*
- Sec. 614. Mars sample return.*
- Sec. 615. Hubble space telescope servicing.*
- Sec. 616. Great observatories mission and technology maturation.*
- Sec. 617. Nancy Grace Roman telescope.*
- Sec. 618. Chandra X-Ray observatory.*
- Sec. 619. Heliophysics research.*
- Sec. 620. Study on commercial space weather data.*
- Sec. 621. Geospace dynamics constellation.*
- Sec. 622. Technology development for wildland fire science, management, and mitigation.*
- Sec. 623. Implementation of recommendations by the National Wildland Fire Management and Mitigation Commission.*

TITLE VII—STEM EDUCATION

- Sec. 701. National space grant college and fellowship program.*
- Sec. 702. Skilled technical workforce education outreach.*

TITLE VIII—POLICY/NASA

- Sec. 801. Major programs.*
- Sec. 802. NASA advisory council.*
- Sec. 803. NASA assessment of early cost estimates.*
- Sec. 804. Independent cost estimate.*
- Sec. 805. Office of Technology, Policy, and Strategy report.*
- Sec. 806. Authorization for the transfer to NASA of funds from other agencies for scientific or engineering research or education.*
- Sec. 807. Procedure for launch services risk mitigation.*
- Sec. 808. Report on merits and options for establishing an institute relating to space resources.*
- Sec. 809. Reports to Congress.*

Sec. 810. Contract flexibility.

Sec. 811. GAO report.

Sec. 812. NASA public-private talent program.

Sec. 813. Report on Space Act agreements.

Sec. 814. Mentoring.

Sec. 815. Drinking water well replacement for Chincoteague, Virginia.

Sec. 816. Rule of construction.

1 **SEC. 2. DEFINITIONS.**

2 *In this Act:*

3 (1) *ADMINISTRATOR.*—*The term “Adminis-*
4 *trator” means the Administrator of the National Aer-*
5 *onautics and Space Administration.*

6 (2) *APPROPRIATE COMMITTEES OF CONGRESS.*—
7 *The term “appropriate committees of Congress”*
8 *means—*

9 (A) *the Committee on Commerce, Science,*
10 *and Transportation of the Senate; and*

11 (B) *the Committee on Science, Space, and*
12 *Technology of the House of Representatives.*

13 (3) *CISLUNAR SPACE.*—*The term “cislunar*
14 *space” means the region of space beyond low-Earth*
15 *orbit out to and including the region around the sur-*
16 *face of the Moon.*

17 (4) *COMMERCIAL PROVIDER.*—*The term “com-*
18 *mercial provider” means any person providing space*
19 *services or space-related capabilities, primary control*
20 *of which is held by persons other than the Federal*
21 *Government, a State or local government, or a foreign*
22 *government.*

1 (5) *DEEP SPACE*.—The term “deep space” means
2 the region of space beyond low-Earth orbit, which in-
3 cludes cislunar space.

4 (6) *ISS*.—The term “ISS” means the Inter-
5 national Space Station.

6 (7) *NASA*.—The term “NASA” means the Na-
7 tional Aeronautics and Space Administration.

8 (8) *ORION*.—The term “Orion” means the multi-
9 purpose crew vehicle described under section 303 of
10 the National Aeronautics and Space Administration
11 Authorization Act of 2010 (42 U.S.C. 18323).

12 (9) *SPACE LAUNCH SYSTEM*.—The term “Space
13 Launch System” means the Space Launch System
14 authorized under section 302 of the National Aero-
15 nautics and Space Administration Authorization Act
16 of 2010 (42 U.S.C. 18322).

17 **TITLE I—AUTHORIZATION OF**
18 **APPROPRIATIONS**

19 **SEC. 101. FISCAL YEAR 2025.**

20 For fiscal year 2025, there are authorized to be appro-
21 priated to NASA \$25,224,640,000 as follows:

22 (1) For the Exploration Systems Development
23 Mission Directorate, \$7,618,200,000.

24 (2) For the Space Operations Mission Direc-
25 torate, \$4,473,500,000.

1 (3) *For the Space Technology Mission Direc-*
2 *torate, \$1,181,800,000.*

3 (4) *For the Science Mission Directorate,*
4 *\$7,334,200,000.*

5 (5) *For the Aeronautics Research Mission Direc-*
6 *torate, \$965,800,000.*

7 (6) *For the Office of STEM Engagement,*
8 *\$135,000,000.*

9 (7) *For Safety, Security, and Mission Services,*
10 *\$3,044,440,000.*

11 (8) *For Construction and Environmental Com-*
12 *pliance and Restoration, \$424,100,000.*

13 (9) *For Inspector General, \$47,600,000.*

14 **TITLE II—EXPLORATION**

15 **SEC. 201. CONTINUITY OF PURPOSE FOR SPACE EXPLO-** 16 **RATION.**

17 (a) *FINDINGS.—Congress finds the following:*

18 (1) *NASA continues to make progress in devel-*
19 *oping and testing the Space Launch System, Orion,*
20 *and associated ground systems, including through the*
21 *successful completion of the Artemis I mission in No-*
22 *vember 2022 and through continued preparations for*
23 *the Artemis II crewed flight demonstration mission.*

24 (2) *The number of spacefaring countries is in-*
25 *creasing, and foreign countries have expanded activi-*

1 *ties for space exploration efforts, including efforts to*
2 *explore and utilize the Moon through human and*
3 *robotic missions.*

4 *(3) A strong and ambitious space exploration*
5 *program conducted with international and commer-*
6 *cial partners is important to maintaining United*
7 *States leadership in space and enhancing United*
8 *States international competitiveness.*

9 *(4) Clear mission objectives that tie to concrete,*
10 *long-term programmatic goals provide a measure to*
11 *ensure accountability, enhance public support for ex-*
12 *ploration missions, and provide a clear signal of com-*
13 *mitment to both international and domestic partners.*

14 *(b) CONTINUITY OF EXISTING CAPABILITIES AND PRO-*
15 *GRAMS.—*

16 *(1) As part of the human exploration activities*
17 *of the Administration, including progress on Artemis*
18 *missions and activities, the Administrator shall con-*
19 *tinue development of space exploration elements pur-*
20 *suant to section 10811 of the National Aeronautics*
21 *and Space Administration Authorization Act of 2022*
22 *(Public Law 117–167; 51 U.S.C. 20302).*

23 *(2) The Administrator shall leverage the private*
24 *sector for logistical services to the extent practical,*
25 *consistent with the Moon to Mars architecture re-*

1 *quirements and in accordance with section 50131 of*
2 *title 51, United States Code.*

3 *(3) Congress reaffirms the sense of Congress to*
4 *maintain continuity of purpose as described in sec-*
5 *tion 201 of the 2017 NASA Transition Authorization*
6 *Act (Public Law 115–10; 131 Stat. 21).*

7 **SEC. 202. ARTEMIS PROGRAM.**

8 *(a) SENSE OF CONGRESS.—The following is the sense*
9 *of Congress:*

10 *(1) Exploration of outer space, including explo-*
11 *ration of the lunar surface and cislunar space, pro-*
12 *vides benefits and economic opportunity, including by*
13 *inspiring future generations and expanding the*
14 *science, technology, engineering, and mathematics*
15 *workforce needed to sustain United States leadership*
16 *in science, space, and technology.*

17 *(2) The lunar south pole is home to shadowed*
18 *craters that may contain water ice and other*
19 *volatiles. Understanding the nature of lunar polar*
20 *volatiles, such as water ice, would advance science re-*
21 *lated to the origin and evolution of volatiles in the*
22 *inner solar system and could facilitate the long-term*
23 *future of space exploration. Water ice lunar resources*
24 *have the potential to become an enabling component*

1 *of future space exploration missions throughout the*
2 *solar system, including crewed missions to Mars.*

3 (3) *Other countries have demonstrated techno-*
4 *logical advances and successful robotic missions for*
5 *lunar exploration and have announced credible plans*
6 *for long-term human exploration of the Moon that in-*
7 *clude the intent to establish lunar bases.*

8 (4) *United States leadership of and measurable*
9 *progress on the exploration of deep space is essential*
10 *for guiding development of norms related to oper-*
11 *ations on and around the Moon and for other space*
12 *destinations.*

13 (5) *It is in the national interest of the United*
14 *States to hold a leadership role in discussions of fu-*
15 *ture norms governing activities in space, including*
16 *those on the lunar surface and in cislunar space.*

17 (b) *IN GENERAL.—In carrying out activities to enable*
18 *Artemis missions under the Moon to Mars Program set forth*
19 *in section 10811 of the National Aeronautics and Space Ad-*
20 *ministration Authorization Act of 2022 (Public Law 117–*
21 *167), the Administrator shall—*

22 (1) *use relevant elements set forth in section*
23 *10811(b)(2)(B) of the National Aeronautics and*
24 *Space Administration Authorization Act of 2022*
25 *(Public Law 117–167);*

1 (2) *continue to ensure that the elements under*
2 *paragraph (1) enable the human exploration of Mars,*
3 *consistent with section 10811(b)(2)(C)(i) of the Na-*
4 *tional Aeronautics and Space Administration Author-*
5 *ization Act of 2022 (Public Law 117–167);*

6 (3) *engage with international partners, as ap-*
7 *propriate, in a manner that is consistent with section*
8 *10811(b)(2)(C) the National Aeronautics and Space*
9 *Administration Authorization Act of 2022 (Public*
10 *Law 117–167), and that increases redundancy, effi-*
11 *ciency, and cost savings; and*

12 (4) *leverage capabilities provided by United*
13 *States commercial providers, as appropriate and*
14 *practicable.*

15 (c) *UNITED STATES COMMERCIAL PROVIDER CAPA-*
16 *BILITIES IN SUPPORT OF LUNAR EXPLORATION EF-*
17 *FORTS.—The Administrator may enter into agreements*
18 *with United States commercial providers or engage in pub-*
19 *lic-private partnerships to procure capabilities and services*
20 *to support the human exploration of the Moon or cislunar*
21 *space.*

22 **SEC. 203. REAFFIRMATION OF THE SPACE LAUNCH SYSTEM.**

23 (a) *SPACE LAUNCH SYSTEM.—*

24 (1) *DEVELOPMENT AND CADENCE OBJECTIVES.—*

25 *Congress reaffirms—*

1 (A) support for the full development of ca-
2 pabilities of the Space Launch System as set
3 forth in section 302(c) of the National Aero-
4 nautics and Space Administration Authorization
5 Act of 2010 (42 U.S.C. 18322(c)); and

6 (B) its commitment to the flight rate of the
7 integrated Space Launch System and Orion
8 crew vehicle missions set forth in section
9 10812(b) of the National Aeronautics and Space
10 Administration Authorization Act of 2022 (Pub-
11 lic Law 117–167; 51 U.S.C. 20301 note).

12 (2) *OTHER USES.*—The Administrator shall as-
13 sess the demand for the Space Launch System by en-
14 tities other than NASA and shall break out such de-
15 mand according to the relevant Federal agency or
16 nongovernment sector. This assessment may—

17 (A) estimate cost and schedule savings from
18 reduced transit times and the potential for in-
19 creased returns enabled by the unique capabili-
20 ties of the Space Launch System;

21 (B) describe any barriers or challenges that
22 could impede use of the Space Launch System by
23 entities other than NASA; and

1 (C) identify potential actions and costs as-
2 sociated with overcoming barriers and challenges
3 described in subparagraph (B).

4 (b) *REPORT.*—Not later than 180 days after the date
5 of the enactment of this Act, the Administrator shall submit
6 to the appropriate committees of Congress a report describ-
7 ing the following:

8 (1) NASA’s progress towards achieving the flight
9 rate referred to in subsection (a)(1)(B) and the ex-
10 pected launch of the integrated Space Launch System
11 and Orion crew vehicle missions after which such ca-
12 dence shall be achieved.

13 (2) The results of the assessment conducted pur-
14 suant to subsection (a)(2).

15 **SEC. 204. HUMAN-RATED LUNAR LANDING CAPABILITIES.**

16 (a) *REAFFIRMATION.*—Congress reaffirms that the
17 Moon to Mars program set forth in section 10811 of the
18 National Aeronautics and Space Administration Author-
19 ization Act of 2022 (Public Law 117–167; 51 U.S.C. 20302
20 note.; 136 Stat. 1732) shall include human-rated lunar
21 landing systems.

22 (b) *HUMAN-RATED LUNAR LANDING CAPABILITIES.*—

23 (1) The Administrator shall support the develop-
24 ment and demonstration of, and shall obtain, human-
25 rated lunar landing capabilities to further the goals

1 *of the human exploration roadmap under section 432*
2 *of the National Aeronautics and Space Administra-*
3 *tion Transition Authorization Act of 2017 (Public*
4 *Law 115–10; 51 U.S.C. 20302 note) and the Moon to*
5 *Mars Program set forth in section 10811 of the Na-*
6 *tional Aeronautics and Space Administration Author-*
7 *ization Act of 2022 (Public Law 117–167).*

8 *(2) The Administrator shall ensure that such*
9 *human-rated lunar landing capabilities meet all rel-*
10 *evant requirements, including requirements of the*
11 *Moon to Mars program, and for human-rating and*
12 *certification.*

13 *(3) Any commercial provider from which the Ad-*
14 *ministrator obtains human-rated lunar landing capa-*
15 *bilities must be a United States commercial provider.*

16 *(4) In carrying out paragraph (1)—*

17 *(A) the Administrator may include*
18 *uncrewed lunar landing services; and*

19 *(B) the Administrator shall, subject to the*
20 *availability of appropriations for such purpose,*
21 *seek to obtain capabilities from not fewer than*
22 *two commercial providers.*

23 *(c) REPORT.—The Administrator shall submit to the*
24 *appropriate committees of Congress the following:*

1 (1) *Not later than 60 days after the date of the*
2 *enactment of this Act, a report—*

3 (A) *identifying the contribution over the*
4 *past five years, and the planned contribution for*
5 *2024–2029, of government personnel, expertise,*
6 *technologies and infrastructure utilized and to be*
7 *utilized in support of design, development, or op-*
8 *eration of human lunar landing capabilities*
9 *under this section; and*

10 (B) *setting forth details and the associated*
11 *costs of such government support, broken out ac-*
12 *cording to the areas of contribution specified in*
13 *subparagraph (A), as part of any development*
14 *initiative for obtaining human lunar landing*
15 *capabilities.*

16 (2) *Not later than 90 days after the date of the*
17 *enactment of this Act, a report that sets forth, for any*
18 *agreement with a United States commercial provider*
19 *for human lunar landing capabilities, the following:*

20 (A) *The total value of the agreement when*
21 *awarded.*

22 (B) *If different from the amount in sub-*
23 *paragraph (A), the total value of the agreement*
24 *as of the date of the enactment of this Act, and*
25 *an explanation for any change in value, as well*

1 *as an identification of whether NASA or the*
2 *commercial partner is responsible for meeting*
3 *the change in value.*

4 *(C) The dollar amount invested and to be*
5 *invested by the Administration, and the dollar*
6 *amount invested and to be invested by the com-*
7 *mercial partner.*

8 *(D) The full requirements, including*
9 *human-rating and safety requirements, for*
10 *human lunar landing capabilities under the*
11 *agreement when awarded.*

12 *(E) If different from the amount specified*
13 *in subparagraph (C), the full requirements, in-*
14 *cluding human-rating and certification require-*
15 *ments, for the human lunar landing capabilities*
16 *under the agreement as of the date of the enact-*
17 *ment of this Act and an explanation for any*
18 *changes in requirements.*

19 *(F) A description of milestone and associ-*
20 *ated payments provided for in the agreement, in-*
21 *cluding the following:*

22 *(i) An identification of all milestones*
23 *under the agreement.*

1 (ii) *The value of the associated pay-*
2 *ment for each milestone identified under*
3 *clause (i).*

4 (iii) *An identification of completed*
5 *milestones and the date of completion.*

6 (iv) *An identification of milestones*
7 *which have not yet been completed and an*
8 *estimated schedule for completion.*

9 (v) *The value of all NASA payments*
10 *under the agreement, outlays as of the date*
11 *of the enactment of this Act, and the*
12 *amount which as of the date of the enact-*
13 *ment of this Act has not yet been paid.*

14 (vi) *a description of any changes in*
15 *milestones and associated payments between*
16 *the date of contract award and the date of*
17 *the enactment of this Act.*

18 (G) *Any cost, schedule, and performance*
19 *challenges as of the date of the enactment of this*
20 *Act in provider performance of the agreement.*

21 (H) *A detailed justification of compliance*
22 *with section 30301 of title 51, United States*
23 *Code.*

1 (I) *A detailed certification and justification*
2 *of compliance with section 50503 of title 51,*
3 *United States Code.*

4 (3) *Not later than 180 days after the date of the*
5 *enactment of this Act, in consultation with any*
6 *United States commercial provider that is party to*
7 *an agreement with NASA for human lunar landing*
8 *capabilities under this section, a report on any steps*
9 *the Administrator and such providers are taking to*
10 *carry out the following:*

11 (A) *Address cost, schedule, and performance*
12 *challenges faced by each commercial provider in*
13 *development and performance of human lunar*
14 *landing capabilities described in paragraph*
15 *(2)(G).*

16 (B) *Facilitate the timely availability of*
17 *human lunar landing capabilities of each pro-*
18 *vider to support the schedule of Artemis missions*
19 *in effect as of the date of the enactment of this*
20 *Act, as applicable to each provider.*

21 (4) *Not later than 180 days after the date of the*
22 *enactment of this Act, a report on alternative ap-*
23 *proaches, and implementation plans for such ap-*
24 *proaches, including an estimate of needed budgetary*
25 *resources, for a human lunar landing capability that*

1 *meets NASA human-rating and certification require-*
2 *ments in the event challenges referred to in paragraph*
3 *(3)(A) cannot be overcome or the timeline specified in*
4 *paragraph (3)(B) cannot be met.*

5 **SEC. 205. ADVANCED SPACESUIT CAPABILITIES.**

6 *(a) FINDINGS.—Congress finds the following:*

7 *(1) Space suits and associated extravehicular ac-*
8 *tivity (EVA) technologies are critical exploration*
9 *technologies that are necessary for future human deep*
10 *space exploration efforts, including crewed missions to*
11 *the Moon.*

12 *(2) The NASA civil service workforce at the*
13 *Johnson Space Center provides unique capabilities to*
14 *design, integrate, and validate Space Suits and asso-*
15 *ciated EVA technologies.*

16 *(3) Maintaining a strong NASA core competency*
17 *in the design, development, manufacture, and oper-*
18 *ation of space suits and related technologies allows*
19 *NASA to be an informed purchaser of competitively*
20 *awarded commercial space suits and subcomponents.*

21 *(4) According to a 2018 NASA Office of Inspec-*
22 *tor General (OIG) report, current EVAs space suits,*
23 *the Extravehicular Mobility Units (EMUs), were de-*
24 *veloped in the late 1970s, are reaching the end of*
25 *their useful life, have experienced multiple mainte-*

1 *nance issues that threaten astronaut lives, and no*
2 *longer accommodate the varying sizes of a diverse as-*
3 *tronaut corps.*

4 (5) *The same NASA OIG report found that “. . .*
5 *manufacturers of several critical suit components, in-*
6 *cluding the very fibers of the suits, have now gone out*
7 *of business. . . ,” which further reinforces the impor-*
8 *tance of NASA’s role in maintaining a space suit core*
9 *competency and limiting the risk posed by outsourc-*
10 *ing key national capabilities.*

11 (6) *The private sector currently is developing*
12 *space suit capabilities.*

13 (7) *Testing space suits and related technologies*
14 *on the International Space Station could reduce risk*
15 *and improve safety of such suits and technologies.*

16 (b) *IN GENERAL.—The Administrator shall obtain ad-*
17 *vanced spacesuit capabilities necessary to achieve the goals*
18 *of NASA’s human spaceflight exploration programs.*

19 (c) *ELIGIBILITY.—Any commercial provider from*
20 *which the Administrator obtains advanced spaceflight capa-*
21 *bilities must be a United States commercial provider, as*
22 *set forth in section 203(c) of this Act.*

23 (d) *PRESERVING SPACESUIT EXPERTISE.—*

24 (1) *In carrying out subsection (b), NASA shall*
25 *maintain the internal expertise necessary to develop*

1 *space suits for both extravehicular activity and sur-*
2 *face operations, including through partnerships with*
3 *the private sector.*

4 (2) *The Johnson Space Center shall continue to*
5 *manage NASA's spacesuit and extravehicular activity*
6 *programs.*

7 (e) *REPORT.—Not later than 180 days from the date*
8 *of the enactment of this Act, the Administrator shall submit*
9 *to the appropriate committees of Congress a report —*

10 (1) *describing NASA's plans for—*

11 (A) *in-space testing of advanced spacesuit*
12 *capabilities, including—*

13 (i) *space suit tests which must be con-*
14 *ducted in microgravity in low-Earth orbit;*
15 *and*

16 (ii) *space suit tests that must be con-*
17 *ducted on the International Space Station*
18 *before decommissioning of the International*
19 *Space Station;*

20 (B) *transitioning from existing spacesuits*
21 *in use on the International Space Station to use*
22 *of advanced spacesuit capabilities;*

23 (C) *future use of advanced spacesuit capa-*
24 *bilities by government astronauts with any non-*
25 *governmental platform in low-Earth orbit that is*

1 *certified for use by the Administration for gov-*
2 *ernment astronauts (as such term is defined in*
3 *section 50902(4) of title 51, United States Code);*
4 *and*

5 *(D) disposition of retired spacesuits used on*
6 *the Space Shuttle or the International Space*
7 *Station; and*

8 *(2) including—*

9 *(A) a detailed justification of compliance*
10 *with section 30301 of title 51, United States*
11 *Code; and*

12 *(B) a detailed certification and justification*
13 *of compliance with section 50503 of title 51,*
14 *United States Code.*

15 *(f) ASSESSMENT OF EXTRAVEHICULAR MOBILITY*
16 *UNITS USED ON THE ISS.—*

17 *(1) No later than 45 days after the date of enact-*
18 *ment of this Act, the Administrator shall enter into*
19 *an arrangement with an independent science and*
20 *technical engineering organization to review the tech-*
21 *nical status and performance of the Administration's*
22 *existing extravehicular mobility units ("EMUs"), to*
23 *analyze the data associated with all mishaps, anoma-*
24 *lies, and off-nominal events related to the EMUs used*
25 *by government astronauts on the International Space*

1 *Station over the last 10 years, and to make rec-*
2 *ommendations to the Administrator, as a result of*
3 *such assessment.*

4 (2) *The Administrator shall ensure that the enti-*
5 *ty carrying out the assessment in paragraph (1)*
6 *consults with relevant industry contractors regarding*
7 *the Administration's EMUs and EMU capabilities,*
8 *and coordinates with the NASA Astronaut Office in*
9 *carrying out such assessment.*

10 (3) *The Administrator shall transmit the results*
11 *of the assessment in paragraph (1) to the appropriate*
12 *committees of Congress as soon as practicable and no*
13 *later than 270 days after the date of enactment of this*
14 *Act.*

15 **TITLE III—SPACE OPERATIONS**

16 **SEC. 301. REPORT ON CONTINUED UNITED STATES PRES-** 17 **ENCE IN LOW EARTH ORBIT.**

18 *Not later than 270 days after the date of the enactment*
19 *of this Act, the Comptroller General shall transmit to the*
20 *appropriate committees of Congress a report containing in-*
21 *formation on the following:*

22 (1) *The United States Government description of*
23 *and plans for implementation of the policy on an un-*
24 *interrupted capability for human space flight and op-*
25 *erations in accordance with section 70501(a) of title*

1 51, *United States Code*, and section 201(b) of the *National Aeronautics and Space Administration Authorization Act of 2010* (42 U.S.C. 18311(b)) regarding
2
3 *United States human space flight capabilities.*

4
5 (2) *The preparedness of the Administration to*
6 *continue to meet statutory direction referenced in*
7 *paragraph (1) under the planned approach to deorbit*
8 *the International Space Station by not later than the*
9 *end of calendar year 2031.*

10 **SEC. 302. INTERNATIONAL SPACE STATION.**

11 (a) *SENSE OF CONGRESS.—It is the sense of Congress*
12 *that—*

13 (1) *ISS is a unique facility that provides the*
14 *United States with capabilities in space that are cur-*
15 *rently unmatched; NASA continues to make produc-*
16 *tive use of the ISS;*

17 (2) *the ISS serves several functions, including es-*
18 *tablishing the United States as a leader in space ac-*
19 *tivities, acting as a beacon of international coopera-*
20 *tion, and conducting cutting-edge microgravity and*
21 *observational research in low-Earth orbit;*

22 (3) *NASA must complete certain objectives on*
23 *the ISS to facilitate deep space exploration efforts, in-*
24 *cluding carrying out human research and dem-*
25 *onstrating exploration-related technologies; and*

1 (4) *reducing crew size or cargo deliveries, or re-*
2 *ducing sustaining engineering capabilities, would re-*
3 *duce the scientific output of the ISS and potentially*
4 *increase the risk to the ISS and its crew.*

5 **(b) FULL UTILIZATION.**—

6 (1) **SENSE OF CONGRESS.**—*It is the sense of*
7 *Congress that, to ensure the greatest return on invest-*
8 *ments made by the United States and the Inter-*
9 *national Space Station partners in the development,*
10 *assembly, and operations of the International Space*
11 *Station, the Administrator should maximize the utili-*
12 *zation and productivity of the International Space*
13 *Station with respect to the priorities set forth in sec-*
14 *tion 10816 of the National Aeronautics and Space*
15 *Administration Authorization Act of 2022 (Public*
16 *Law 117–167; 51 U.S.C. 70901 note), which include*
17 *research of the human research program, risk reduc-*
18 *tion activities relevant to exploration technologies, the*
19 *advancement of United States leadership of basic and*
20 *applied space life and physical sciences, and other re-*
21 *search and development essential to Moon to Mars*
22 *program activities.*

23 (2) **AMENDMENT.**—*Section 502(a) of the Na-*
24 *tional Aeronautics and Space Administration Author-*

1 *ization Act of 2010 (Public Law 111–267; 42 U.S.C.*
2 *18352(a)), is amended by striking “take steps to”.*

3 **SEC. 303. NONGOVERNMENTAL MISSIONS ON THE INTER-**
4 **NATIONAL SPACE STATION.**

5 *(a) SENSE OF CONGRESS.—It is the sense of Congress*
6 *that—*

7 *(1) nongovernmental missions involving crew or*
8 *spaceflight participants on the International Space*
9 *Station carried out, as appropriate, pursuant to*
10 *NASA policies and procedures, and Federal Govern-*
11 *ment laws and regulations, can provide lessons and*
12 *learning experiences for both government and non-*
13 *government entities to inform the development of fu-*
14 *ture commercial low-Earth orbit platforms and a low-*
15 *Earth orbit economy; and*

16 *(2) the Administrator should share lessons*
17 *learned from nongovernmental missions on the Inter-*
18 *national Space Station to advance the commercial*
19 *human spaceflight industry, to promote the safety of*
20 *future commercial low-Earth orbit platforms, and to*
21 *inform the evolution of policies guiding such activities*
22 *in low-Earth orbit.*

23 *(b) NONGOVERNMENTAL MISSIONS ON THE ISS.—The*
24 *Administrator may enter into one or more agreements to*
25 *enable one or more United States commercial providers to*

1 *conduct nongovernmental missions on the International*
2 *Space Station pursuant to NASA policies and procedures,*
3 *and Federal government laws and regulations.*

4 *(c) REPORT.—Not later than 18 months after the date*
5 *of the enactment of this Act, the Comptroller General of the*
6 *United States shall submit to the appropriate committees*
7 *of Congress a report containing information relating to the*
8 *following:*

9 *(1) The number of nongovernmental missions on*
10 *the ISS planned.*

11 *(2) The number of nongovernmental missions on*
12 *the ISS completed.*

13 *(3) The extent to which commercial entities car-*
14 *rying out nongovernmental missions on the ISS fully*
15 *reimburse costs incurred by NASA in association*
16 *with any nongovernmental missions carried out on*
17 *the International Space Station.*

18 *(4) The extent to which nongovernmental mis-*
19 *sions on the International Space Station impact the*
20 *priorities specified in section 10816 of the National*
21 *Aeronautics and Space Administration Authorization*
22 *Act of 2022 (Public Law 117–167; 51 U.S.C. 70901*
23 *note).*

24 *(5) The impact, if any, to operations of or ac-*
25 *tivities on the International Space Station that are*

1 *not related to nongovernmental missions on the Inter-*
2 *national Space Station.*

3 (6) *The extent to which any nongovernmental*
4 *mission on the ISS—*

5 (A) *conforms with section 20102 of title 51,*
6 *United States Code;*

7 (B) *adheres to the requirements of section*
8 *50131 of title 51, United States Code; and*

9 (C) *is consistent with the national security*
10 *or foreign policy interests of the United States.*

11 (7) *Any other issues related to nongovernmental*
12 *missions on the International Space Station that the*
13 *Comptroller General determines are appropriate for*
14 *review as part of undertaking the report in subsection*
15 *(c).*

16 (d) *DEFINITIONS.—In this section, the terms “crew”*
17 *and “spaceflight participant” have the meanings given such*
18 *terms in section 50902 of title 51, United States Code.*

19 **SEC. 304. REPORT ON SUBORBITAL CREW MISSIONS.**

20 *Not later than 180 days after the date of the enactment*
21 *of this Act, the Administrator shall deliver to the appro-*
22 *priate committees of Congress a report on the costs, benefits,*
23 *risks, training requirements, and policy or legal implica-*
24 *tions, including liability matters, of launching United*

1 *States Government personnel on commercial suborbital ve-*
2 *hicles.*

3 **SEC. 305. UNITED STATES DEORBIT CAPABILITIES.**

4 (a) *SENSE OF CONGRESS.*—*It is the sense of Congress*
5 *that—*

6 (1) *the International Space Station is aging and*
7 *eventually will need to be deorbited safely and dis-*
8 *posed of in a controlled manner; and*

9 (2) *to protect the safety of the public, and to*
10 *avoid interfering with other space operators or objects,*
11 *NASA plans to deorbit and disposition the Inter-*
12 *national Space Station through a controlled atmos-*
13 *pheric reentry over an uninhabited region.*

14 (b) *AUTHORIZATION.*—

15 (1) *The Administrator shall acquire ISS deorbit*
16 *capabilities from one or more United States commer-*
17 *cial providers.*

18 (2) *In carrying out paragraph (1), the Adminis-*
19 *trator shall, to the greatest extent practicable, not re-*
20 *duce or deprioritize NASA activities conducted on*
21 *and in support of the ISS to support the acquisition*
22 *of United States deorbit capabilities.*

23 (c) *COSTS.*—

24 (1) *INDEPENDENT COST ESTIMATE.*—*Before en-*
25 *tering into an agreement for the capabilities described*

1 *in subsection (b), the Administrator shall obtain an*
2 *independent life-cycle cost estimate for the deorbit ca-*
3 *pability and shall report the results of such estimate*
4 *and a five-year budget profile to the appropriate com-*
5 *mittees of Congress.*

6 (2) *REPORT.—*

7 (A) *Not later than one year after the date*
8 *of the enactment of this Act, the Administrator*
9 *shall submit to the appropriate committees of*
10 *Congress a report detailing the Administration’s*
11 *plan for the financial, logistical, and operational*
12 *responsibilities associated with the deorbit capa-*
13 *bility.*

14 (B) *Annually, the Administrator shall sub-*
15 *mit to the appropriate committees of Congress a*
16 *report, to accompany the President’s budget re-*
17 *quest, containing a description of the annual*
18 *and lifecycle costs for activities related to the*
19 *deorbit of the International Space Station and*
20 *how such costs are shared among the ISS part-*
21 *ners.*

22 **SEC. 306. COMMERCIAL LOW-EARTH ORBIT DEVELOPMENT.**

23 (a) *STRATEGY.—Not later than 180 days after the date*
24 *of the enactment of this Act, the Administrator, in consulta-*
25 *tion with the National Space Council, shall transmit to the*

1 *appropriate committees of Congress a strategy for a robust*
2 *and resilient architecture to advance NASA and other rel-*
3 *evant Federal government civil research, development, and*
4 *operational requirements in low-Earth orbit. The architec-*
5 *ture should—*

6 (1) *include a mix of crewed and uncrewed plat-*
7 *forms;*

8 (2) *consider an incremental approach to achiev-*
9 *ing the full suite of capabilities necessary to meet*
10 *NASA research, development, and operational re-*
11 *quirements in low-Earth orbit;*

12 (3) *consider the requirements described in sub-*
13 *section (b); and*

14 (4) *sustain and promote United States leader-*
15 *ship and international partnerships in carrying out*
16 *low-Earth orbit activities.*

17 (b) *REQUIREMENTS.—Not later than 90 days after the*
18 *date of the enactment of this Act, the Administrator shall*
19 *transmit to the appropriate committees of Congress and*
20 *make available to relevant United States commercial indus-*
21 *try entities, a detailed account of the research, development,*
22 *and operational requirements for NASA activities in low-*
23 *Earth orbit, including any requirements that could affect*
24 *the design, development, instrumentation, and long-term*
25 *operations of future United States commercial low-Earth*

1 orbit platforms and supporting capabilities. In preparing
2 the detailed account of research, development, and oper-
3 ational requirements, the Administrator may consider the
4 requirements of other relevant Federal agencies.

5 (c) *AUTHORIZATION.*—The Administrator is author-
6 ized to enter into agreements with one or more United
7 States commercial providers to enable the development and
8 certification of, and procure capabilities related to, a
9 United States private, low-Earth orbit platform or plat-
10 forms, and to use such platforms or platforms and related
11 capabilities to achieve the goals set forth in the strategy
12 under subsection (a), to sustain the priorities described in
13 section 10816 of the National Aeronautics and Space Ad-
14 ministration Authorization Act of 2022 (Public Law 117–
15 167; 51 U.S.C. 70901 note) and the activities under the
16 Human Exploration Roadmap pursuant to section
17 432(b)(2)(J) of the National Aeronautics and Space Admin-
18 istration Transition Authorization Act of 2017 (Public Law
19 115–10), and to meet the requirements described in sub-
20 section (b).

21 (d) *ANCHOR TENANCY.*—No later than November 15,
22 2025, the Administrator shall provide to the appropriate
23 committees of Congress the following:

24 (1) The results of a survey and assessment of the
25 market for capabilities and services that may be pro-

1 *vided through future United States commercial low-*
2 *Earth orbit platforms that shall be prepared by an*
3 *independent entity with appropriate expertise;*

4 (2) *A detailed justification of compliance with*
5 *section 30301 of title 51, United States Code.*

6 (3) *A detailed certification and justification of*
7 *compliance with section 50503 of title 51, United*
8 *States Code.*

9 (e) *USE OF UNITED STATES LAUNCH AND REENTRY*
10 *SERVICES.—As a term of an agreement entered into under*
11 *to subsection (c), the Administrator shall include a require-*
12 *ment for the use of United States commercially-provided*
13 *launch and reentry services to support all Administration*
14 *activities under the agreement, in accordance with section*
15 *50131 of title 51, United States Code, as applicable.*

16 (f) *SAFETY.—When an agreement under subsection (c)*
17 *involves a government astronauts (as such term is defined*
18 *in section 50902(4) of title 51, United States Code), the Ad-*
19 *ministrator shall protect the safety of the government astro-*
20 *naut by ensuring that each platform under the agreement*
21 *meets all applicable human rating processes, certification,*
22 *and safety requirements.*

23 **SEC. 307. RISK OF LOSING ACCESS TO LOW-EARTH ORBIT.**

24 *Not later than 270 days after the date of the enactment*
25 *of this Act, the Administrator shall submit to the appro-*

1 *private committees of Congress a report that evaluates the*
2 *risk posed by a potential gap in access to low-Earth orbit*
3 *on science and technology research and development con-*
4 *ducted by NASA and private entities. The report shall de-*
5 *scribe the following:*

6 (1) *The NASA science and exploration programs*
7 *that may be adversely affected by the lack of a United*
8 *States presence in low-Earth orbit.*

9 (2) *The effects that a gap in low-Earth orbit*
10 *would have on the United States' competitiveness in*
11 *science and technology and in the development of the*
12 *United States-based commercial space industry.*

13 (3) *Potential options and associated costs for*
14 *preventing such a gap, including the following:*

15 (A) *Implementing the strategy described in*
16 *section 306.*

17 (B) *Supporting the operation of the Inter-*
18 *national Space Station beyond 2030.*

19 (C) *Increasing investment in and accel-*
20 *erating development of commercial space sta-*
21 *tions.*

22 (D) *Working with international partners to*
23 *establish alternative means for conducting re-*
24 *search in low-Earth orbit.*

1 **SEC. 308. MAINTENANCE OF SERVICE FOR INTERNATIONAL**
2 **SPACE STATION.**

3 (a) *IN GENERAL.*—Subject to appropriations for such
4 purpose, the Administrator shall maintain a flight cadence
5 necessary to support the health and safety of the Inter-
6 national Space Station crew and the full and productive
7 utilization of the International Space Station through its
8 operational lifetime, consistent with the certification date
9 of the International Space Station. In maintaining such
10 flight cadence, the Administrator shall seek to carry out not
11 less than the average annual cadence for the immediately
12 preceding three fiscal years of crew and cargo flights on
13 United States vehicles certified under NASA’s Commercial
14 Crew and Cargo Program as of the date of the enactment
15 of this Act.

16 (b) *WAIVER.*—The Administrator may waive the re-
17 quirement under subsection (a) upon submission of a writ-
18 ten determination to Congress that—

19 (1) *the health and safety of the International*
20 *Space Station requires a reduction in flights; or*

21 (2) *the International Space Station has con-*
22 *cluded its operational lifetime.*

23 **SEC. 309. ORBITAL DEBRIS RESEARCH AND DEVELOPMENT.**

24 (a) *SENSE OF CONGRESS.*—It is the sense of Congress
25 that NASA’s research and development activities related to
26 understanding and mitigating the hazards posed by orbital

1 debris are critical to ensuring the continued safe operation
2 of NASA missions, including the safety of humans living
3 and working in space, and such activities further enable
4 scientific and technological advances that can be leveraged
5 by the broader space operations community to foster a sus-
6 tainable space environment.

7 (b) *RESEARCH AND DEVELOPMENT.*—The Adminis-
8 trator shall, to the extent practicable, conduct research and
9 development to advance scientific understanding and tech-
10 nological capabilities related to orbital debris characteriza-
11 tion and mitigation.

12 (c) *CONSIDERATIONS.*—In conducting the research and
13 development described in subsection (b), the Administrator
14 may consider activities that—

15 (1) improve the characterization and modeling of
16 the space environment, including the characterization
17 and modeling of objects of both natural and anthropo-
18 genic origins that cannot be directly characterized by
19 ground-based measurements;

20 (2) leverage space weather research and develop-
21 ment elements within NASA’s Heliophysics program,
22 to the extent appropriate and in accordance with the
23 priorities established in the most recent solar and
24 space physics decadal survey; and

1 (3) *support the application of relevant research,*
2 *tools, and technologies to advance orbital debris char-*
3 *acterization and mitigation and the transfer of such*
4 *research, tools, and technologies to stakeholders, as ap-*
5 *propriate and practicable.*

6 **SEC. 310. RESTRICTION ON FEDERAL FUNDS RELATING TO**
7 **CERTAIN CHINESE SPACE AND SCIENTIFIC**
8 **ACTIVITIES.**

9 (a) *IN GENERAL.*—*No Federal funds authorized in this*
10 *Act may be obligated or expended for the following:*

11 (1) *For the National Aeronautics and Space Ad-*
12 *ministration (NASA), the Office of Science and Tech-*
13 *nology Policy (OSTP), or the National Space Council*
14 *(NSC) to develop, design, plan, promulgate, imple-*
15 *ment, or execute a bilateral policy, program, order, or*
16 *contract of any kind to participate, collaborate, or co-*
17 *ordinate bilaterally in any way with China or any*
18 *Chinese-owned company unless such activities are*
19 *specifically authorized by a law enacted after the date*
20 *of the enactment of this Act.*

21 (2) *To effectuate the hosting of official Chinese*
22 *visitors at facilities belonging to or utilized by NASA.*

23 (b) *EXCEPTION.*—*The restrictions described in sub-*
24 *section (a) shall not apply to activities with respect to*

1 *which NASA, OSTP, or NSC, after consultation with the*
2 *Federal Bureau of Investigation, have certified—*

3 *(1) pose no risk of resulting in the transfer of*
4 *technology, data, or other information with national*
5 *security or economic security implications to China*
6 *or a Chinese-owned company; and*

7 *(2) will not involve knowing interactions with*
8 *officials who have been determined by the United*
9 *States to have direct involvement with violations of*
10 *human rights.*

11 *(c) SUBMISSION.—Any certification made under sub-*
12 *section (b) shall be submitted to the Committee on Science,*
13 *Space, and Technology and the Committee on Appropria-*
14 *tions of the House of Representatives, the Committee on*
15 *Commerce, Science, and Transportation and the Committee*
16 *on Appropriations of the Senate, and the Federal Bureau*
17 *of Investigation, not later than 30 days prior to the activity*
18 *in question. Any such certification shall include a descrip-*
19 *tion of the purpose of such activity, its agenda, its major*
20 *participants, and its location and timing.*

21 **TITLE IV—SPACE TECHNOLOGY**

22 **SEC. 401. SBIR PHASE II FLEXIBILITY.**

23 *Section 9 of the Small Business Act (15 U.S.C. 638)*
24 *is amended in subsection (cc) by striking “and the Depart-*
25 *ment of Education” and inserting “the Department of Edu-*

1 cation, and the National Aeronautics and Space Adminis-
2 tration”.

3 **SEC. 402. LUNAR POWER PURCHASE AGREEMENT PRO-**
4 **GRAM.**

5 (a) *STUDY.*—*The Administrator may enter into an ar-*
6 *7 rangement with an independent entity with appropriate ex-*
8 *9 pertise to conduct a study evaluating the feasibility of using*
10 *11 power purchase agreements to facilitate the development*
12 *13 and deployment of lunar surface power.*

14 (b) *CONTENTS.*—*The study conducted under subsection*
15 *16 (a) may include the following:*

17 (1) *An identification of facilities and technical*
18 *19 capabilities needed to support lunar surface power*
20 *21 production.*

22 (2) *A demand forecast for lunar surface power,*
23 *24 including the following:*

25 (A) *Forecasted demand of both govern-*
26 *27 mental and nongovernmental users.*

28 (B) *To support the following:*

29 (i) *Near-term exploration activities.*

30 (ii) *Long-duration activities.*

31 (3) *Potential policy and legal issues associated*
32 *33 with lunar power purchase agreements between pro-*
34 *35 viders and the United States Government, inter-*
36 *national partners, and other private sector entities.*

1 (c) *COORDINATION.*—*In conducting the study under*
2 *this section, the Administrator may consult with the fol-*
3 *lowing:*

4 (1) *The Lunar Surface Innovation Consortium.*

5 (2) *The Department of Energy, the Department*
6 *of Commerce, and other Federal agencies, as deter-*
7 *mined appropriate by the Administrator.*

8 (3) *International partners.*

9 (4) *Relevant private sector entities.*

10 (d) *REPORT.*—*Not later than 24 months after the date*
11 *of the enactment of this Act, the Administrator may submit*
12 *to the appropriate committees of Congress a report that de-*
13 *scribes the results of the study conducted pursuant to sub-*
14 *section (a).*

15 **SEC. 403. CRYOGENIC FLUID VALVE TECHNOLOGY REVIEW.**

16 (a) *SENSE OF CONGRESS.*—*It is the sense of Congress*
17 *that advancing cryogenic fluid valve technology would sup-*
18 *port the Administration's efforts to improve cryogenic fluid*
19 *management and improve space vehicle reliability and effi-*
20 *ciency.*

21 (b) *TECHNOLOGY AND RESEARCH REVIEW.*—*Not later*
22 *than 90 days after the date of the enactment of this Act,*
23 *subject to the availability of appropriations, the Adminis-*
24 *trator shall enter into an agreement with an independent*
25 *research and development center or other independent non-*

1 *profit organization, as determined appropriate by the Ad-*
2 *ministrator, to conduct a review of cryogenic fluid valve*
3 *technology in accordance with this section. The organiza-*
4 *tion shall review recent advances in technologies related to*
5 *cryogenic fluid valve use in space applications and assess*
6 *opportunities to improve cryogenic fluid valve technologies,*
7 *including support for research and development activities*
8 *to advance materials engineering for cryogenic fluid valves.*

9 (c) *REPORT.*—*Not later than 18 months after the date*
10 *of the enactment of this Act, the organization conducting*
11 *the review shall submit to the Administrator and the appro-*
12 *priate committees of Congress a report detailing the results*
13 *of the review conducted under this section.*

14 **SEC. 404. LUNAR COMMUNICATIONS.**

15 (a) *FINDINGS.*—*Congress finds the following:*

16 (1) *Reliable communication and navigation ca-*
17 *pabilities are essential for sustainable human and*
18 *robotic exploration of the Moon.*

19 (2) *Fostering the development of commercial ca-*
20 *pabilities can accelerate the deployment of lunar com-*
21 *munication and navigation services.*

22 (b) *IN GENERAL.*—*The Administrator is authorized to*
23 *develop a robust and resilient architecture for lunar com-*
24 *munications and navigation to support the Administra-*
25 *tion’s human and robotic lunar exploration activities.*

1 (c) *STUDY AND PLAN.*—*To inform the development in*
2 *subsection (a), the Administrator shall develop a study and*
3 *prepare a plan to—*

4 (1) *enable interoperable communications and*
5 *navigation services for cislunar missions;*

6 (2) *work with the private sector, other Federal*
7 *agencies, and, as appropriate, international partners*
8 *to establish technical standards, consistent with sec-*
9 *tion 12(d) of the National Technology Transfer and*
10 *Advancement Act of 1995 (Public Law 104–113), pro-*
11 *ocols, and interface requirements for cislunar com-*
12 *munications and navigation services and systems;*

13 (3) *support NASA lunar activities;*

14 (4) *leverage NASA’s space technology research,*
15 *development, and demonstration activities related to*
16 *space communications and navigation; and*

17 (5) *evaluate the opportunities, benefits, feasi-*
18 *bility, and challenges of potentially using commercial*
19 *cislunar communication and navigation services, as*
20 *appropriate, by United States commercial providers.*

21 **SEC. 405. CELESTIAL TIME STANDARDIZATION.**

22 (a) *SENSE OF CONGRESS.*—*It is the sense of Congress*
23 *that—*

24 (1) *United States leadership of a sustained pres-*
25 *ence on the Moon and in deep space exploration is*

1 *important for advancing science, exploration, com-*
2 *mercial growth, and international partnership;*

3 *(2) the Artemis and Moon to Mars program of*
4 *the National Aeronautics and Space Administration*
5 *(NASA) will involve governmental, commercial, aca-*
6 *demie, and international partners where there is a*
7 *need for interoperability between systems;*

8 *(3) the use of Coordinated Universal Time has*
9 *challenges when used beyond Earth at other celestial*
10 *bodies, due to relativistic effects;*

11 *(4) the United States should lead in developing*
12 *time standardization for the Moon and other celestial*
13 *bodies other than Earth to support interoperability*
14 *and safe and sustainable operations; and*

15 *(5) development of such standardization will ad-*
16 *vance United States leadership in standards setting*
17 *for global competitiveness, and will benefit other*
18 *spacefaring countries and entities.*

19 *(b) DEVELOPMENT OF CELESTIAL TIME STANDARD-*
20 *IZATION.—The Administrator of NASA, in consultation*
21 *with the Director of the Office of Science and Technology*
22 *Policy, shall carry out the following:*

23 *(1) Enable the development of celestial time*
24 *standardization, including by leading the study and*
25 *definition of a coordinated lunar time.*

1 (2) *Develop a strategy to implement a coordi-*
2 *nated lunar time that would support future oper-*
3 *ations and infrastructure on and around the Moon.*

4 (3) *In carrying out paragraphs (1) and (2)—*

5 (A) *coordinate with relevant Federal enti-*
6 *ties, including the Department of Commerce, the*
7 *Department of Defense, the Department of State,*
8 *and the Department of Transportation; and*

9 (B) *consult with—*

10 (i) *relevant private sector entities;*

11 (ii) *relevant academic entities; and*

12 (iii) *relevant international standards*
13 *setting bodies.*

14 (4) *Incorporate the following features of a coordi-*
15 *nated lunar time, to the extent practicable, in the de-*
16 *velopment of the strategy developed pursuant to para-*
17 *graph (2):*

18 (A) *Traceability to Coordinated Universal*
19 *Time.*

20 (B) *Accuracy sufficient to support precision*
21 *navigation and science.*

22 (C) *Resilience to loss of contact with Earth.*

23 (D) *Scalability to space environments be-*
24 *yond the Earth-Moon system.*

1 (c) *REPORT.*—Not later than two years after the date
2 of the enactment of this Act, the Administrator of NASA
3 shall submit to the Committee on Science, Space, and Tech-
4 nology of the House of Representatives and the Committee
5 on Commerce, Science, and Transportation of the Senate
6 a report describing the strategy developed pursuant to sub-
7 section (b)(2), including relevant plans, timelines, and re-
8 sources required for the implementation of a coordinated
9 lunar time pursuant to such strategy.

10 **TITLE V—AERONAUTICS**

11 **SEC. 501. DEFINITIONS.**

12 *In this title:*

13 (1) *ADVANCED AIR MOBILITY; AAM.*—The terms
14 “advanced air mobility” and “AAM” mean a trans-
15 portation system that is comprised of urban air mo-
16 bility and regional air mobility using manned or un-
17 manned aircraft.

18 (2) *REGIONAL AIR MOBILITY.*—The term “re-
19 gional air mobility” means the movement of pas-
20 sengers or property by air between 2 points using an
21 airworthy aircraft that—

22 (A) has advanced technologies, such as dis-
23 tributed propulsion, vertical takeoff and landing,
24 powered lift, nontraditional power systems, or
25 autonomous technologies;

1 (B) has a maximum takeoff weight of great-
2 er than 1,320 pounds; and

3 (C) is not urban air mobility.

4 (3) *UNMANNED AIRCRAFT SYSTEM.*—The term
5 “unmanned aircraft system” has the meanings given
6 such term in section 44801 of title 49, United States
7 Code.

8 (4) *URBAN AIR MOBILITY.*—The term “urban air
9 mobility” means the movement of passengers or prop-
10 erty by air between 2 points in different cities or 2
11 points within the same city using an airworthy air-
12 craft that—

13 (A) has advanced technologies, such as dis-
14 tributed propulsion, vertical takeoff and landing,
15 powered lift, nontraditional power systems, or
16 autonomous technologies; and

17 (B) has a maximum takeoff weight of great-
18 er than 1,320 pounds.

19 (5) *UTM.*—The term “UTM” means an un-
20 manned aircraft system traffic management system or
21 service.

22 **SEC. 502. EXPERIMENTAL AIRCRAFT DEMONSTRATIONS.**

23 (a) *STUDY.*—Not later than 1 year after the date of
24 the enactment of this Act, the Administrator, in consulta-
25 tion with industry and academia, shall conduct a study of

1 *past and future administration of the experimental aircraft*
2 *demonstrator projects.*

3 (b) *FUTURE DEMONSTRATIONS.*—*The study under*
4 *subsection (a) shall identify systems, capabilities, and tech-*
5 *nologies that could be viable candidates for maturation and*
6 *demonstration through the development of an experimental*
7 *aircraft demonstrator. Such systems, capabilities, and tech-*
8 *nologies may include technological advancements related to*
9 *structures, aerodynamics, propulsion, controls, and autono-*
10 *mous capabilities. The study shall include a description of*
11 *criteria and performance metrics used to determine the*
12 *readiness of a system, capability, or technology to be dem-*
13 *onstrated on a future experimental aircraft demonstrator.*

14 (c) *LESSONS LEARNED.*—*The study under subsection*
15 *(a) also shall include an assessment of lessons learned from*
16 *the Administration’s previous experimental aircraft dem-*
17 *onstration projects over the last decade, including the*
18 *projects set forth under section 10831 of the National Aero-*
19 *nautics and Space Administration Authorization Act of*
20 *2022 (Public Law 117–167). This assessment shall in-*
21 *clude—*

22 (1) *a quantitative assessment of each experi-*
23 *mental aircraft demonstration project’s ability to*
24 *meet cost, schedule and performance goals, as defined*
25 *at the time of project confirmation;*

1 (2) *the extent to which the project’s objectives or*
2 *performance goals were changed or descoped;*

3 (3) *the extent to which the system, capability, or*
4 *technology that was the subject of the project was ma-*
5 *tured as a result of its demonstration on an experi-*
6 *mental aircraft demonstrator; and*

7 (4) *the extent to which the project has contrib-*
8 *uted to advancing the capabilities of and innovation*
9 *in the United States aircraft and aviation industries.*

10 **SEC. 503. HYPERSONIC RESEARCH.**

11 (a) *SENSE OF CONGRESS.—It is the sense of Congress*
12 *that—*

13 (1) *basic and applied hypersonic research—*

14 (A) *is critical for enabling the development*
15 *of advanced high-speed aeronautical and space*
16 *systems; and*

17 (B) *can improve understanding of technical*
18 *challenges related to high-speed and reusable ve-*
19 *hicle technologies, including those related to pro-*
20 *pulsion, noise, advanced materials, and entry,*
21 *descent, and landing operations;*

22 (2) *investments in hypersonic research are crit-*
23 *ical to sustaining United States global leadership in*
24 *space and aeronautics; and*

1 (3) *NASA efforts to study hypersonic research*
2 *should complement research supported by the Depart-*
3 *ment of Defense and, when appropriate, be conducted*
4 *in partnership with universities and industry.*

5 (b) *HYPERSONIC RESEARCH.*—*The Administrator, in*
6 *coordination with the Administrator of the Federal Avia-*
7 *tion Administration and the Secretary of the Department*
8 *of Defense, and in consultation with industry and aca-*
9 *demia, shall continue to carry out basic and applied*
10 *hypersonic research.*

11 (c) *HYPERSONIC RESEARCH ROADMAP.*—*Not later*
12 *than 180 days after the date of the enactment of this Act,*
13 *the Administrator, in consultation with the Administrator*
14 *of the Federal Aviation Administration and the Secretary*
15 *of the Department of Defense, and with industry and aca-*
16 *demic institutions, shall update the hypersonic research*
17 *roadmap required under section 603 of the National Aero-*
18 *nautics and Space Administration Transition Authoriza-*
19 *tion Act of 2017 (Public Law 115–10; 51 U.S.C. 20302*
20 *note). In updating the research roadmap, the Administrator*
21 *may consider advancements in—*

22 (1) *system level design, analysis, and validation*
23 *of hypersonic aircraft technologies;*

24 (2) *propulsion capabilities and technologies;*

1 *Materials and Manufacturing Technology Program, and*
2 *section 10831(f), regarding relevant Research Partnerships,*
3 *as set forth in the National Aeronautics and Space Admin-*
4 *istration Authorization Act of 2022 (Public Law 117–167).*

5 **SEC. 505. UNMANNED AIRCRAFT SYSTEM AND ADVANCED**
6 **AIR MOBILITY.**

7 (a) *FINDING.*—*Congress finds that research and devel-*
8 *opment related to autonomous aviation is vital to ensure*
9 *United States competitiveness as the National Airspace*
10 *System evolves from trajectory-based operations to collabo-*
11 *rative and highly automated operations.*

12 (b) *COLLABORATION.*—*The Administrator shall, in col-*
13 *laboration with the Administrator of Federal Aviation Ad-*
14 *ministration, the heads of other relevant Federal agencies,*
15 *and appropriate representatives of academia and industry,*
16 *continue its research on unmanned aircraft systems and ad-*
17 *vanced air mobility, including research related to UTM and*
18 *autonomous capabilities, as practicable.*

19 (c) *BRIEF.*—*Not later than 18 months after the date*
20 *of the enactment of this Act, the Administrator shall brief*
21 *the appropriate committees of Congress on the progress of*
22 *the research under subsection (b).*

1 **SEC. 506. ADVANCED CAPABILITIES FOR EMERGENCY RE-**
2 **SPONSE OPERATIONS.**

3 (a) *IN GENERAL.*—*The Administrator shall leverage*
4 *NASA-developed tools and technologies to conduct research*
5 *and development activities under the Advanced Capabilities*
6 *for Emergency Response Operations (ACERO) project, or*
7 *appropriate successor project or projects, to improve aerial*
8 *responses to wildfires.*

9 (b) *GOALS.*—*The research and development activities*
10 *conducted under subsection (a) may include the following:*

11 (1) *Advanced aircraft technologies and airspace*
12 *management efforts to assist in the management,*
13 *deconfliction, and coordination of aerial assets during*
14 *wildfire response efforts.*

15 (2) *Information sharing and real-time data ex-*
16 *change for wildfire response teams.*

17 (3) *Development of an interoperable platform to*
18 *provide situational awareness of aerial assets during*
19 *wildfire response.*

20 (4) *Establishment of a multi-agency concept of*
21 *operations, which may involve Federal, State, and*
22 *local government agencies, to enable coordination of*
23 *aerial activities for wildfire response.*

24 (c) *COLLABORATION.*—*In carrying out this section, the*
25 *Administrator—*

1 (1) *may coordinate and collaborate with other*
2 *Federal, State, and local government agencies, re-*
3 *gional organizations, and commercial partners and*
4 *academic institutions involved in wildfire manage-*
5 *ment; and*

6 (2) *shall, to the maximum extent practicable,*
7 *consult with the heads of other Federal departments*
8 *and agencies to avoid duplication of activities.*

9 *(d) PROHIBITION.—*

10 (1) *IN GENERAL.—Except as provided in this*
11 *subsection, the Administrator may not procure an un-*
12 *manned aircraft system to conduct activities described*
13 *in this section if such unmanned aircraft system is*
14 *manufactured or assembled by a covered foreign enti-*
15 *ty.*

16 (2) *EXEMPTION.—The Administrator may waive*
17 *the prohibition under paragraph (1) on a case-by-case*
18 *basis if the Administrator—*

19 (A) *determines that the procurement of an*
20 *unmanned aircraft system is—*

21 (i) *in the national interest of the*
22 *United States; and*

23 (ii) *necessary for the sole purpose of*
24 *improving aerial responses to wildfires; and*

1 (B) notifies the Committee on Science,
2 Space, and Technology of the House of Rep-
3 resentatives and the Committee on Commerce,
4 Science, and Transportation of the Senate not
5 later than 30 days after a determination in the
6 affirmative under subparagraph (A).

7 (e) ANNUAL REPORTS.—Not later than one year after
8 the date of the enactment of this Act and annually thereafter
9 until December 31, 2029, the Administrator shall submit
10 to the Committee on Science, Space and Technology of the
11 House of Representatives and the Committee on Commerce,
12 Science, and Transportation of the Senate a report describ-
13 ing the activities, including results, carried out pursuant
14 to this section 2. Each such report, at minimum, shall con-
15 tain the following:

16 (1) A description of any research and develop-
17 ment activities.

18 (2) A description of the Administrator’s activi-
19 ties pursuant to subsection (c).

20 (3) An identification of any topics related to im-
21 provement of aerial responses to wildfires that could
22 benefit from further research.

23 (4) A description of any continuing efforts under
24 this section.

1 (5) *Any other information determined appro-*
2 *priate by the Administrator.*

3 (f) *DEFINITION.—In this section:*

4 (1) *COVERED FOREIGN ENTITY.—The term “cov-*
5 *ered foreign entity” has the meaning given such term*
6 *in section 1832 of the National Defense Authorization*
7 *Act for Fiscal Year 2024 (Public Law 118–31).*

8 (2) *UNMANNED AIRCRAFT SYSTEM.—The term*
9 *“unmanned aircraft system” has the meaning given*
10 *such term in section 44801 of title 49, United States*
11 *Code.*

12 **SEC. 507. HYDROGEN AVIATION.**

13 (a) *IN GENERAL.—Subject to the availability of appro-*
14 *priations for such purpose, and taking into consideration*
15 *the strategy developed under and research conducted pursu-*
16 *ant to section 1019 of the FAA Reauthorization Act of 2024*
17 *(Public Law 118–63), the Administrator may carry out re-*
18 *search on emerging technologies related to hydrogen avia-*
19 *tion.*

20 (b) *REPORT.—Not later than 18 months after the date*
21 *of the enactment of this Act, the Administrator shall submit*
22 *to the appropriate committees of Congress a report on the*
23 *findings of the research under subsection (a).*

1 **SEC. 508. HIGH-PERFORMANCE CHASE AIRCRAFT.**

2 (a) *SENSE OF CONGRESS.*—*It is the sense of Congress*
3 *that—*

4 (1) *NASA programs benefit from and rely upon*
5 *high-performance chase aircraft for providing re-*
6 *search and mission support; and*

7 (2) *NASA currently faces maintenance challenges*
8 *related to its aging high-performance aircraft fleet,*
9 *which is resulting in increased program costs.*

10 (b) *BRIEFING.*—*Not later than 60 days after the date*
11 *of the enactment of this Act and biannually thereafter, the*
12 *Administrator shall provide to the appropriate committees*
13 *of Congress a briefing on the strategy of NASA relating to*
14 *the following:*

15 (1) *Collaboration with the Department of De-*
16 *fense on efforts for research and flight asset sharing*
17 *to support NASA’s research mission support and pilot*
18 *training requirements.*

19 (2) *Efforts to seek aircraft parts and engines to*
20 *keep NASA’s current fleet of chase aircraft oper-*
21 *ational, including potential use of 3D additive manu-*
22 *factured parts.*

23 (3) *Strategies for acquiring or using through*
24 *loan, sharing, or other agreements, as appropriate,*
25 *Department of Defense aircraft to support NASA’s re-*
26 *search and mission support activities, as required.*

1 **SEC. 509. COLLABORATION WITH ACADEMIA.**

2 *It is the sense of Congress that—*

3 *(1) colleges and universities are hubs of research*
4 *and innovation, with expertise in various fields of*
5 *science and aeronautics;*

6 *(2) collaborating with academia allows NASA to*
7 *access cutting-edge research and expertise that can*
8 *further enable advancements in aeronautics research*
9 *and technology and address complex aeronautical*
10 *challenges;*

11 *(3) a cutting-edge civil aeronautics research and*
12 *development program can inspire the next generation*
13 *to pursue education and careers in science, tech-*
14 *nology, engineering, and mathematics, including aer-*
15 *onautics; and*

16 *(4) opportunities for students to participate in*
17 *NASA-supported academic research and development*
18 *projects, such as the University Leadership Initiative,*
19 *the University Students Research Challenge, and re-*
20 *lated aeronautic projects and competitions, contrib-*
21 *utes to training the next generation and developing*
22 *the aeronautics workforce to support continued*
23 *United States leadership and economic growth in*
24 *civil aeronautics and aviation.*

1 **SEC. 510. NATIONAL STUDENT UNMANNED AIRCRAFT SYS-**
2 **TEMS COMPETITION PROGRAM.**

3 (a) *IN GENERAL.*—*The Administrator shall lead a na-*
4 *tional pilot program to carry out unmanned aircraft sys-*
5 *tems technology competitions for students at the high school*
6 *and undergraduate level (in this section referred to as “com-*
7 *petitions”)* in which students shall compete to design, cre-
8 ate, and demonstrate an unmanned aircraft system.

9 (b) *COMPETITION ADMINISTRATION.*—*The Adminis-*
10 *trator shall award, on a merit-reviewed, competitive basis,*
11 *a grant to a nonprofit organization, an institution of high-*
12 *er education, or a consortium thereof, to administer the*
13 *pilot program under subsection (a) (in this section referred*
14 *to as the “competition administrator”).*

15 (c) *AWARD CRITERIA.*—*The Administrator shall en-*
16 *sure that the award decision made under subsection (b) take*
17 *into account the extent to which the eligible entity—*

18 (1) *identifies a plan for engaging eligible institu-*
19 *tions from diverse geographic areas, including poor,*
20 *rural, and Tribal communities; and*

21 (2) *identifies a plan for connecting science, tech-*
22 *nology, engineering, and medicine (STEM) activities*
23 *to Administration missions and centers.*

24 (d) *COMPETITION ADMINISTRATOR RESPONSIBIL-*
25 *ITIES.*—*In carrying out the pilot program, the competition*
26 *administrator shall be responsible for the following:*

1 (1) *Awarding grants to institutions of higher*
2 *education or nonprofit organizations (or a consortium*
3 *thereof) on a merit-reviewed, competitive basis to host*
4 *individual competitions.*

5 (2) *Developing STEM curriculum to be utilized*
6 *by the competition awardees to help students make the*
7 *connection to the design, construction, and dem-*
8 *onstration of unmanned aircraft systems.*

9 (3) *Developing curriculum to assist students in*
10 *making real-world connections to STEM content and*
11 *educate students on the relevance and significance of*
12 *STEM careers.*

13 (4) *Ensuring competition awardees are sup-*
14 *porting the activities specified in subsection (f).*

15 (5) *Conducting performance evaluations of com-*
16 *petitions, including data collection, on the following:*

17 (A) *The number of students engaged.*

18 (B) *Geographic and institutional diversity*
19 *of participating schools and institutions of high-*
20 *er education.*

21 (6) *Any other activities the Administrator finds*
22 *necessary to ensure the competitions are successful.*

23 (e) *ADDITIONAL CONSIDERATIONS.—In awarding*
24 *grants in subsection (d), the competition administrator*
25 *shall consider applications that include a partnership with*

1 *that State's space grant program under chapter 403 of title*
2 *51, United States Code.*

3 *(f) PERMITTED ACTIVITIES.—In carrying out the pilot*
4 *program under subsection (a), the competition adminis-*
5 *trator shall ensure competitions occurring at both the high*
6 *school and undergraduate levels—*

7 *(1) allow students to design, construct, and dem-*
8 *onstrate an unmanned aircraft system;*

9 *(2) allow students to compete with other teams*
10 *in the performance of the constructed unmanned air-*
11 *craft system;*

12 *(3) connect to relevant missions and NASA Cen-*
13 *ter activities of the Administration;*

14 *(4) connect relevant STEM curriculum to the de-*
15 *sign, construction, and demonstration of unmanned*
16 *aircraft systems;*

17 *(5) support activities designed to help students*
18 *make real-world connections to STEM content and*
19 *educate students on the relevance and significance of*
20 *STEM careers;*

21 *(6) are geographically dispersed in order to serve*
22 *a broad student population, including those in rural*
23 *and underserved communities; and*

1 (7) encourage, to the greatest extent practicable,
2 the participation of students from groups historically
3 underrepresented in STEM.

4 (g) *REPORT TO CONGRESS.*—Not later than six months
5 after the end of the pilot program under subsection (a), the
6 Administrator shall submit to the appropriate committees
7 of Congress a report describing the accomplishments, lessons
8 learned, any challenges in the implementation of the pilot
9 program, and recommendations for whether to continue the
10 pilot program.

11 (h) *DEFINITION.*—In this section, the term “eligible in-
12 stitution” means—

13 (1) an institution of higher education;

14 (2) a nonprofit research institution;

15 (3) a high school; or

16 (4) a consortium of 2 or more entities described
17 in any of paragraphs (1) through (3).

18 **SEC. 511. DECADAL SURVEY FOR NATIONAL AERONAUTICS**

19 **RESEARCH AND PRIORITIES REVIEW.**

20 (a) *FINDING.*—Congress finds the following:

21 (1) Engaging the science and engineering com-
22 munities, along with industry, through the develop-
23 ment of a National Academies of Science, Engineer-
24 ing, and Medicine decadal survey in aeronautics re-
25 search and development can provide a science and en-

1 *gineering community consensus on key research and*
2 *development priorities in national civil aeronautics*
3 *programs.*

4 (2) *A decadal survey entails a comprehensive re-*
5 *view of and strategy and priorities for civil national*
6 *aeronautics research and development and prioritizes*
7 *for the next decade.*

8 (3) *A decadal survey for civil aeronautics re-*
9 *search and development can serve as a guiding frame-*
10 *work for strategic planning and resource allocation in*
11 *the field of civil aeronautics for the coming decade.*

12 (b) *STUDY.—The Administrator in consultation with*
13 *the heads of other relevant Federal Government agencies*
14 *and in accordance with section 20305 of title 51, United*
15 *States Code, shall seek to enter into an arrangement with*
16 *the National Academies of Sciences, Engineering, and Med-*
17 *icine (in this section referred to as the “National Acad-*
18 *emies”)* *to conduct a decadal survey of civil aeronautics re-*
19 *search and development for the 2025—2035 decade. The*
20 *survey shall recommend research priorities to sustain*
21 *United States leadership in civil aeronautics research and*
22 *development and support a safe and sustainable future for*
23 *aviation. The survey may also include recommendations re-*
24 *lated to the dissemination and transition of such research*
25 *and development to the United States commercial aviation*

1 *and aircraft industries, to enabling innovation, and to en-*
2 *surging a world-class workforce for aeronautics research and*
3 *development and related United States commercial indus-*
4 *tries and activities.*

5 (c) *TRANSMITTAL.*—*Not later than 2 years after the*
6 *date of enactment of this Act, the Administrator shall sub-*
7 *mit to the Committee on Science, Space, and Technology*
8 *of the House of Representatives and the Committee on Com-*
9 *merce, Science, and Transportation of the Senate the results*
10 *of such survey, including any recommendations.*

11 **SEC. 512. MAKING ADVANCEMENTS IN COMMERCIAL**
12 **HYPERSONICS.**

13 (a) *IN GENERAL.*—*In conducting the hypersonics re-*
14 *search in section 40112(d) of title 51, United States Code,*
15 *the Administrator may establish the Making Advancements*
16 *in Commercial Hypersonics Program (in this section re-*
17 *ferred to as the “Program”), which shall facilitate opportu-*
18 *nities for testing of high-speed aircraft and other tech-*
19 *nologies that advance scientific research and technology de-*
20 *velopment related to hypersonic aircraft.*

21 (b) *LIMITATION.*—*The Program under subsection (a)*
22 *shall not fund the development of technologies that are sup-*
23 *ported by such testing opportunities.*

24 (c) *PLAN.*—*Not later than 60 days after the date of*
25 *the enactment of this Act, the Administrator, acting through*

1 *the Aeronautics Research Mission Directorate, shall develop*
2 *a strategic plan for activities under subsection (a) that*
3 *aligns with the research roadmap under section 503 of this*
4 *Act.*

5 *(d) COORDINATION, CONSULTATION AND COLLABORA-*
6 *TION.—*

7 *(1) The Administrator shall ensure coordination*
8 *between the Aeronautics Research Mission Directorate*
9 *and other Mission Directorates, as appropriate, to*
10 *identify technologies eligible for testing opportunities*
11 *under the Program.*

12 *(2) The Administrator shall consult and seek to*
13 *collaborate with, as appropriate, with the Secretary of*
14 *Defense and the Administrator of the Federal Avia-*
15 *tion Administration on activities related to the Pro-*
16 *gram, including development, testing, and evaluation*
17 *of high-speed aircraft and related technologies.*

18 *(e) REPORT.—The Administrator shall submit to the*
19 *appropriate committees of Congress, and the Committee on*
20 *Armed Services of the House of Representatives and the*
21 *Committee on Armed Services of the Senate—*

22 *(1) not later than 80 days after the date of the*
23 *enactment of this section, a report that—*

24 *(A) describes activities of the program es-*
25 *tablished under subsection (a); and*

1 (B) includes the strategic plan produced
2 under subsection (c); and

3 (2) not later than 1 year after the date of the en-
4 actment of this Act, and annually thereafter, a report
5 describing progress in carrying out the program, in-
6 cluding the number and type of testing opportunities
7 executed in the previous fiscal year and planned for
8 the upcoming fiscal year.

9 (f) *RESEARCH SECURITY*.—Nothing under this section
10 authorizes the Administrator to develop, implement, or exe-
11 cute an agreement related to technologies under this section
12 with any entity of concern, a foreign business entity, or
13 a foreign country of concern.

14 (g) *DEFINITIONS*.—In this section—

15 (1) *ENTITY OF CONCERN*.—the term “entity of
16 concern” has the meaning given such term in section
17 10114 of the Research and Development, Competition,
18 and Innovation Act (Public Law 117–167; 42 U.S.C.
19 18912).

20 (2) *FOREIGN BUSINESS ENTITY*.—The term “for-
21 eign business entity” means an entity that is major-
22 ity-owned or majority-controlled (as such term is de-
23 fined in section 800.208 of title 31, Code of Federal
24 Regulations, or a successor regulation), or minority
25 owned greater than 25 percent by—

1 (A) any governmental organization of a for-
2 eign country of concern; or

3 (B) any other entity that is—

4 (i) known to be owned or controlled by
5 any governmental organization of a foreign
6 country of concern; or

7 (ii) organized under, or otherwise sub-
8 ject to, the laws of a foreign country of con-
9 cern.

10 (3) *FOREIGN COUNTRY OF CONCERN.*—The term
11 “foreign country of concern” has the meaning given
12 such term in section 9901 of title XCIX of division
13 H of the William M. (Mac) Thornberry National De-
14 fense Authorization Act for Fiscal Year 2021 (15
15 U.S.C. 4651).

16 (4) *HIGH-SPEED AIRCRAFT.*—The term “high-
17 speed aircraft” has the meaning given such term in
18 section 1009 of the Federal Aviation Reauthorization
19 Act of 2024 (Public Law 118–63).

20 **TITLE VI—SCIENCE**

21 **SEC. 601. MAINTAINING A BALANCED SCIENCE PORTFOLIO.**

22 (a) *SENSE OF CONGRESS.*—Congress reaffirms the
23 sense of Congress that—

24 (1) a balanced and adequately funded set of ac-
25 tivities consisting of research and analysis grant pro-

1 *grams, technology development, suborbital research*
2 *activities, and small, medium, and large space mis-*
3 *sions, contributes to a robust and productive science*
4 *program and serves as a catalyst for innovation and*
5 *discovery; and*

6 *(2) the Administrator should set science prior-*
7 *ities by following the recommendations and guidance*
8 *provided by the scientific community through the Na-*
9 *tional Academies of Sciences, Engineering, and Medi-*
10 *cine decadal surveys.*

11 *(b) POLICY REAFFIRMATION.—Congress reaffirms the*
12 *policy of the United States set forth in section 501(c) of*
13 *the National Aeronautics and Space Administration Tran-*
14 *sition Authorization Act of 2017 (Public Law 115–10; 51*
15 *U.S.C. 20302 note), which states, “It is the policy of the*
16 *United States to ensure, to the extent practicable, a steady*
17 *cadence of large, medium, and small science missions”.*

18 **SEC. 602. IMPLEMENTATION OF SCIENCE MISSION COST-**

19 **CAPS.**

20 *(a) SENSE OF CONGRESS.—It is the sense of Congress*
21 *that—*

22 *(1) NASA science missions address compelling*
23 *scientific questions prioritized by the National Acad-*
24 *emies decadal surveys, and often such missions exceed*

1 *expectations in terms of performance, longevity, and*
2 *scientific impact;*

3 *(2) the Administrator should continue to pursue*
4 *an ambitious science program while also seeking to*
5 *avoid excessive cost growth that has the potential to*
6 *affect the balance across the Science portfolio and*
7 *within the Science Divisions;*

8 *(3) audits by the NASA Inspector General and*
9 *the Government Accountability Office have reported*
10 *that early cost estimates for missions in the prelimi-*
11 *nary phases of conception and development are im-*
12 *mature and unreliable, and the cost of a mission*
13 *typically is not well-understood until the project is*
14 *further along in the development process;*

15 *(4) cost growth of a mission beyond its early cost*
16 *estimates is a challenge for budget planning and has*
17 *the potential to affect other missions in the Science*
18 *Mission Directorate portfolio, including through*
19 *delays to future mission solicitations; and*

20 *(5) relying on early cost estimates made prior to*
21 *preliminary design review for science missions which*
22 *then experience such cost growth may disincentivize*
23 *program and cost discipline moving forward.*

24 *(b) REPORT.—Not later than 12 months after the date*
25 *of the enactment of this Act, the Comptroller General shall*

1 *transmit to the appropriate committees of Congress a re-*
2 *view of NASA practices related to establishment of and com-*
3 *pliance with cost caps of competitively-selected, principal*
4 *investigator-led science missions. The review shall—*

5 (1) *assess current cost cap values and determine*
6 *whether existing cost-cap amounts are appropriate for*
7 *different classes of missions;*

8 (2) *consider the effectiveness of cost caps in*
9 *maintaining a varied and balanced portfolio of mis-*
10 *sion types within the Science Mission Directorate;*

11 (3) *describe the information NASA requires as*
12 *part of a proposal submission related to project cost*
13 *estimates and proposal compliance with cost caps,*
14 *and assess whether such required information pro-*
15 *vides sufficient insight or confidence in the estimates;*

16 (4) *consider NASA processes for assessing pro-*
17 *posed cost estimates and the accuracy of such assess-*
18 *ments for past competitively-selected, principal inves-*
19 *tigator-led science missions; and*

20 (5) *for the period starting on January 1, 2000*
21 *and ending on the date of the enactment of this Act—*

22 (A) *a list of—*

23 (i) *competitively-selected, principal in-*
24 *vestigator-led science missions for which*

1 *costs have exceeded the associated cost cap;*

2 *and*

3 *(ii) reason the mission costs exceeded*

4 *the cost-cap;*

5 *(B) an assessment of NASA’s role in pre-*

6 *dicting, preventing, or managing competitively-*

7 *selected, principal investigator-led science mis-*

8 *sion cost increases; and*

9 *(C) a description of the impact of increased*

10 *competitively-selected, principal investigator-led*

11 *science mission costs beyond the cost caps on—*

12 *(i) the missions for which the cost cap*

13 *has been breached; and*

14 *(ii) other missions within the applica-*

15 *ble division and within the Science Mission*

16 *Directorate.*

17 **SEC. 603. REEXAMINATION OF DECADEAL SURVEYS.**

18 *Title 51, United States Code, is amended in section*

19 *20305(c) by inserting “, significant changes to the NASA*

20 *budget” after “growth”.*

21 **SEC. 604. LANDSAT.**

22 *Not later than 180 days after the date of enactment*

23 *of this Act, the Administrator shall transmit a report to*

24 *the appropriate committees of Congress describing—*

1 (1) *the Administrator’s efforts to comply with*
2 *section 60134 of title 51, United States Code;*

3 (2) *aspects of Landsat NEXT or any other*
4 *Landsat observations that—*

5 (A) *could be provided by private sector*
6 *data-buys or service procurements; and*

7 (B) *could—*

8 (i) *meet associated science require-*
9 *ments while maintaining or exceeding the*
10 *quality, integrity, and continuity of the*
11 *Landsat observational capabilities and per-*
12 *formance, including requirements necessary*
13 *to ensure high-quality calibrated data con-*
14 *tinuity and traceability with the 50-year*
15 *Landsat data record; and*

16 (ii) *comply with nondiscriminatory*
17 *availability of unenhanced data and public*
18 *archiving of data pursuant to section 60141*
19 *and 60142 of title 51, United States Code,*
20 *and all other relevant federal laws, regula-*
21 *tions, and policies related to open science*
22 *and data accessibility;*

23 (3) *any potential tradeoffs or other impacts of*
24 *subparagraphs (A) or (B) that could reduce the ben-*
25 *efit of Landsat data for scientific and applied uses or*

1 *reduce the Federal Government’s ability to make such*
2 *data available for the widest possible use; and*

3 (4) *recommendations and opportunities for the*
4 *Federal Government to mitigate potential tradeoffs or*
5 *impacts identified under paragraph (3) or to other-*
6 *wise facilitate private sector data-buys or service pro-*
7 *curements.*

8 **SEC. 605. PRIVATE EARTH OBSERVATION DATA.**

9 (a) *AMENDMENTS.*—*Section 702 of the National Aero-*
10 *navtics and Space Administration Authorization Act of*
11 *2010 (42 U.S.C. 18371) is amended—*

12 (1) *by striking “The Director of OSTP” and in-*
13 *serting the following:*

14 “(a) *IN GENERAL.*—*The Director of OSTP*”; and

15 (2) *by adding at the end the following:*

16 “(b) *CONSIDERATIONS.*—*In updating the civil Earth*
17 *observation strategic implementation plan pursuant to sub-*
18 *section (a), the Director of the Office of Science and Tech-*
19 *nology Policy shall consider commercial Earth observation*
20 *data, as appropriate, that can be purchased or accessed by*
21 *the Federal Government to meet Earth observation require-*
22 *ments.”.*

23 (b) *GOVERNMENT ACCOUNTABILITY OFFICE RE-*
24 *PORT.*—*Not later than 12 months after the release of the*
25 *next civil Earth observation strategic implementation plan*

1 *update under section 702(a) of the National Aeronautics*
2 *and Space Administration Authorization Act of 2010 (42*
3 *U.S.C. 18371(a)), the Comptroller General shall report to*
4 *the appropriate committees of Congress an assessment of the*
5 *Director of the Office of Science and Technology Policy's*
6 *implementation of section 702(b) of the National Aero-*
7 *nautics and Space Administration Authorization Act of*
8 *2010 (42 U.S.C. 18371(b)), as amended.*

9 **SEC. 606. COMMERCIAL SATELLITE DATA.**

10 *(a) FINDINGS.—Congress makes the following findings:*

11 *(1) Section 60501 of title 51, United States*
12 *Code, states that the goal for the Earth Science pro-*
13 *gram of NASA shall be to pursue a program of Earth*
14 *observations, research, and applications activities to*
15 *better understand the Earth, how it supports life, and*
16 *how human activities affect its ability to do so in the*
17 *future.*

18 *(2) Section 50115 of title 51, United States*
19 *Code, states that the Administrator of NASA shall, to*
20 *the extent possible and while satisfying the scientific*
21 *or educational requirements of NASA, and where ap-*
22 *propriate, of other Federal agencies and scientific re-*
23 *searchers, acquire, where cost effective, space-based*
24 *and airborne commercial Earth remote sensing data,*

1 *services, distribution, and applications from a com-*
2 *mercial provider.*

3 *(3) The Administrator of NASA established the*
4 *Commercial SmallSat Data Acquisition Pilot Pro-*
5 *gram in 2019 to identify, validate, and acquire from*
6 *commercial sources data that support the Earth*
7 *science research and application goals.*

8 *(4) The Administrator of NASA has—*

9 *(A) determined that the pilot program de-*
10 *scribed in paragraph (3) has been a success, as*
11 *described in the final evaluation entitled “Com-*
12 *mercial SmallSat Data Acquisition Program*
13 *Pilot Evaluation Report” issued in 2020;*

14 *(B) established a formal process for evalu-*
15 *ating and onboarding new commercial vendors*
16 *in such pilot program;*

17 *(C) increased the number of commercial*
18 *vendors and commercial data products available*
19 *through such pilot program; and*

20 *(D) expanded procurement arrangements*
21 *with commercial vendors to broaden user access*
22 *to provide commercial Earth remote sensing*
23 *data and imagery to federally funded research-*
24 *ers.*

1 “(2) the publication of information that is de-
2 rived from, incorporates, or enhances the original
3 commercial data or imagery of a vendor.

4 “(c) *AUTHORIZATION.*—In carrying out the program
5 under this section, the Administrator may—

6 “(1) procure the commercial Earth remote sens-
7 ing data and imagery from commercial vendors to
8 advance scientific research and applications in ac-
9 cordance with subsection (a); and

10 “(2) establish or modify end-use license terms
11 and conditions to allow for the widest-possible use of
12 procured commercial Earth remote sensing data and
13 imagery by individuals other than NASA-funded
14 users, consistent with the goals of the program.

15 “(d) *UNITED STATES VENDORS.*—Commercial Earth
16 remote sensing data and imagery referred to in subsections
17 (a) and (c) shall, to the maximum extent practicable, be
18 procured from United States vendors.

19 “(e) *REPORT.*—Not later than 180 days after the date
20 of the enactment of this section and annually thereafter, the
21 Administrator shall submit to the Committee on Commerce,
22 Science, and Transportation of the Senate and the Com-
23 mittee on Science, Space, and Technology of the House of
24 Representatives a report that includes the following infor-
25 mation regarding the agreements, vendors, license terms,

1 *and uses of commercial Earth remote sensing data and im-*
2 *agery under this section:*

3 “(1)(A) *In the case of the initial report, a list*
4 *of all agreements that are providing commercial*
5 *Earth remote sensing data and imagery to NASA as*
6 *of the date of the report.*

7 “(B) *For each subsequent report, a list of all*
8 *agreements that have provided commercial Earth re-*
9 *mote sensing data and imagery to NASA during the*
10 *reporting period.*

11 “(2) *A description of the end-use license terms*
12 *and conditions for each such vendor.*

13 “(3) *A description of the manner in which each*
14 *such agreement is advancing scientific research and*
15 *applications, including priorities recommended by the*
16 *National Academies of Sciences, Engineering, and*
17 *Medicine decadal surveys.*

18 “(4) *Information specifying whether the Admin-*
19 *istrator has entered into an agreement with a com-*
20 *mercial vendor or a Federal agency that permits the*
21 *use of data and imagery by Federal Government em-*
22 *ployees, contractors, or non-Federal users.”.*

23 (2) *CLERICAL AMENDMENT.—The table of con-*
24 *tents for chapter 603 of title 51, United States Code,*

1 *is amended by adding at the end the following new*
2 *item:*

“60307. Commercial Satellite Data Acquisition Program.”.

3 **SEC. 607. GREENHOUSE GAS EMISSION MEASUREMENTS.**

4 *(a) SENSE OF CONGRESS.—It is the sense of Congress*
5 *that—*

6 *(1) observation and measurement of greenhouse*
7 *gases such as carbon dioxide and methane are of crit-*
8 *ical importance to understand the sources of these*
9 *emissions;*

10 *(2) additional tools can improve the precise de-*
11 *tection of methane leaks from natural gas lines and*
12 *production facilities to reduce economic losses and to*
13 *reduce unintentional release of this potent greenhouse*
14 *gas;*

15 *(3) observation of such gases can be conducted*
16 *with a combination of space-based, airborne, and*
17 *ground-based instruments;*

18 *(4) in 2022, NASA cancelled the Geostationary*
19 *Carbon Cycle Observatory, a competitively-selected,*
20 *Principal Investigator-led instrument under develop-*
21 *ment that is designed to make space-based observa-*
22 *tions of greenhouse gases, including carbon dioxide,*
23 *carbon monoxide, and methane, as well as vegetation*
24 *health over the western hemisphere from geosynchro-*
25 *nous orbit; and*

1 (5) *in 2023, the Geostationary Carbon Cycle Ob-*
2 *servatory PI-led project team delivered an*
3 *unvalidated instrument assembly and flight spares to*
4 *NASA as part of the project closeout activities.*

5 **(b) HARDWARE.—**

6 (1) *The Administrator shall assess the hardware*
7 *and, to the maximum extent practicable, seek to vali-*
8 *date the instrument assembly delivered to the Admin-*
9 *istration under the contract for the development of*
10 *GeoCarb, which shall include an assessment of sci-*
11 *entific capabilities of the delivered hardware, includ-*
12 *ing potential repurposed uses or science contributions.*

13 (2) *The Administrator, within 6 months of the*
14 *date of the enactment of this Act, shall provide a re-*
15 *port to the appropriate committees of Congress re-*
16 *garding the results of the assessment conducted pursu-*
17 *ant to paragraph (1) and if appropriate based on the*
18 *assessment, a list of potential launch opportunities,*
19 *including cost and schedule associated with such op-*
20 *portunities.*

21 **(c) STRATEGY.—**

22 (1) *IN GENERAL.—Not later than 90 days after*
23 *the date of the enactment of this Act, the Adminis-*
24 *trator, in consultation with the National Oceanic and*
25 *Atmospheric Administration, the National Institute of*

1 *Standards and Technology, and other relevant agen-*
2 *cies, shall enter into an agreement with the National*
3 *Academies of Sciences, Engineering, and Medicine to*
4 *develop a science-based strategy to assess and evaluate*
5 *the use of present and future greenhouse gas moni-*
6 *toring and detection capabilities, including ground-*
7 *based, airborne, and space-based sensors and integra-*
8 *tion of data relating to such monitoring and detection*
9 *from other indicators, to detect large methane emis-*
10 *sion events (commonly referred to as “methane super-*
11 *emitters”).*

12 (2) *REQUIREMENTS.—The strategy described in*
13 *subsection (a) shall include the following elements:*

14 (A) *Development of a proposed definition*
15 *for the term “methane super-emitter”.*

16 (B) *Examination of whether and how cur-*
17 *rent and planned Federal greenhouse gas moni-*
18 *toring and detection capabilities may be lever-*
19 *aged to monitor and detect methane super-*
20 *emitters, and identify key gaps in such capabili-*
21 *ties.*

22 (C) *Examination of the effectiveness of the*
23 *U.S. Greenhouse Gas Center and Greenhouse Gas*
24 *Monitoring and Measurement Interagency Work-*
25 *ing Group in facilitating interagency collabora-*

1 *tion for greenhouse gas monitoring and detec-*
2 *tion, data standards, stewardship, and data inte-*
3 *gration, including activities related to moni-*
4 *toring and detecting methane super-emitters.*

5 *(D) Examination of actions taken by Fed-*
6 *eral agencies and departments in response to the*
7 *National Strategy to Advance an Integrated U.S.*
8 *Greenhouse Gas Measurement, Monitoring, and*
9 *Information System, including progress towards*
10 *pathways to enhance the scientific and oper-*
11 *ational value of information regarding methane*
12 *super-emitters.*

13 *(E) Consideration of options for the Federal*
14 *Government to partner with nongovernmental*
15 *entities, including State and local governments,*
16 *academia, nonprofit organizations, commercial*
17 *industry, and international organizations, to ef-*
18 *fectively leverage greenhouse gas monitoring and*
19 *detection capabilities to monitor and detect*
20 *methane super-emitters.*

21 *(F) Consideration of options for the Federal*
22 *Government to validate and verify technologies*
23 *and data developed or collects by nongovern-*
24 *mental entities, academia, nonprofit organiza-*
25 *tions, commercial industry, and international*

1 *organizations related to monitoring and detect-*
2 *ing methane super-emitters.*

3 *(G) Recommendations regarding the activi-*
4 *ties under subparagraphs (A) through (F), as*
5 *appropriate.*

6 *(d) USE OF STRATEGY.—The Administrator may use*
7 *the strategy described in subsection (a) to inform the plan-*
8 *ning of research and development activities regarding*
9 *greenhouse gas monitoring and detection, including meth-*
10 *ane super-emitters.*

11 *(e) REPORT.—Not later than 18 months after the date*
12 *of the execution of the agreement between the Administrator*
13 *and the National Academies of Sciences, Engineering, and*
14 *Medicine under subsection (a), the National Academies*
15 *shall submit to the Administrator, the Committee on*
16 *Science, Space, and Technology of the House of Representa-*
17 *tives, and the Committee on Commerce, Science, and Trans-*
18 *portation of the Senate a report on the strategy described*
19 *in subsection (a).*

20 *(f) DEFINITIONS.—In this section:*

21 *(1) GREENHOUSE GAS MONITORING AND DETEC-*
22 *TION.—The term “greenhouse gas monitoring and de-*
23 *tection” means the direct observation, from space or*
24 *in-situ, or collection of measurement data pertaining*
25 *to, greenhouse gas emissions and levels.*

1 (2) *GEOCARB*.—The term “GeoCarb” shall mean
2 the Geostationary Carbon Cycle Observatory.

3 **SEC. 608. NASA DATA FOR AGRICULTURAL APPLICATIONS.**

4 (a) *FINDINGS*.—Congress finds the following:

5 (1) NASA has decades of experience in space-
6 based scientific Earth observations and measure-
7 ments, including data, trends and modeling.

8 (2) NASA Earth science data, which includes
9 data on precipitation, temperature,
10 evapotranspiration, soil moisture, and vegetation
11 health, has been used to inform the decisionmaking of
12 agricultural producers.

13 (3) NASA applies its scientific data and models
14 to inform and support the agricultural community
15 and engages in innovative collaborations such as the
16 NASA Acres and NASA Harvest agricultural con-
17 sortia.

18 (4) NASA uses space-based Earth observations
19 and science and applications to support farmers in
20 efforts to conserve water and other resources, improve
21 farm management and crop yield, and facilitate the
22 stability of the national food supply.

23 (5) NASA’s upcoming Earth System Observatory
24 will benefit the agricultural community by improving
25 observations critical for measuring and under-

1 *standing cropland conditions, water availability,*
2 *early onset crop disease, soil moisture, and other crop*
3 *and rangeland management indicators.*

4 *(6) Increased engagement between NASA and the*
5 *agricultural community can support agricultural*
6 *producers, bolster the national food supply, and im-*
7 *prove agricultural research, science, and technology.*

8 *(b) DATA DISSEMINATION.—NASA shall continue to*
9 *partner with other relevant Federal agencies, as practicable,*
10 *to disseminate water, soil, vegetation, land-use, and other*
11 *relevant NASA Earth observation and science data, infor-*
12 *mation and tools to support American agricultural pro-*
13 *ducers. Such partnerships may include activities such as—*

14 *(1) continuing the leverage NASA Earth science*
15 *water data and information to enable efficient use of*
16 *resources, inform irrigation decisions, and support*
17 *local innovation and control of water management;*

18 *(2) supporting agriculture decisionmaking by in-*
19 *creasing the accessibility and useability of NASA*
20 *Earth science data, information, and tools relevant to*
21 *the impact of disease, weather, precipitation, and*
22 *other environmental factors on agricultural produc-*
23 *tion; or*

24 *(3) making available, to the greatest extent prac-*
25 *ticable, NASA earth science measurements and data*

1 *to advance precision agricultural capabilities relevant*
2 *to the needs and requirements of agricultural pro-*
3 *ducers.*

4 *(c) APPLICATION OF SPACE-BASED DATA.—The Ad-*
5 *ministrator shall, in furtherance of the goal for the NASA’s*
6 *Earth science and applications program of securing prac-*
7 *tical benefits for society, as set forth in section 60501 of*
8 *title 51, United States Code, continue to collaborate with*
9 *relevant Federal agencies to develop mechanisms to transi-*
10 *tion, as appropriate, relevant NASA Earth science research*
11 *findings, data, information, models, and capabilities to*
12 *operational governmental and private sector entities focused*
13 *on addressing the needs of the agricultural user community.*

14 *(d) PARTNERING.—In carrying out subsections (b) and*
15 *(d), NASA shall, to the extent practicable and in collabora-*
16 *tion with other relevant Federal agencies, where appro-*
17 *priate, continue to engage State and local government agen-*
18 *cies, institutions of higher education, agriculture producer*
19 *organizations, and other relevant stakeholder and user com-*
20 *munities from the public and private sectors to improve dis-*
21 *semination of NASA Earth science data, information, and*
22 *tools relevant to the needs of agricultural producers and the*
23 *agriculture industry, in accordance with the goal for the*
24 *Administration’s Earth science and applications program*
25 *set forth in section 60501 of title 51, United States Code,*

1 *and relevant recommendations of the most recent decadal*
2 *survey on Earth science and applications from space.*

3 **SEC. 609. PLANETARY SCIENCE PORTFOLIO.**

4 (a) *SENSE OF CONGRESS.*—*It is the sense of Congress*
5 *that—*

6 (1) *planetary science missions advance the sci-*
7 *entific understanding of the solar system and the*
8 *place of humans in it while also advancing the design*
9 *and operations of spacecraft and robotic engineering;*
10 *and*

11 (2) *Discovery, New Frontiers, and Flagship pro-*
12 *grams allow NASA to fund a range of missions that*
13 *vary in size, cost, and complexity; maintaining bal-*
14 *ance across these mission classes allows for a broad*
15 *scope of discoveries and scientific advances.*

16 (b) *MISSION PRIORITIES REAFFIRMATION.*—*Congress*
17 *reaffirms the direction in section 502(b)(1) of the National*
18 *Aeronautics and Space Administration Transition Author-*
19 *ization Act of 2017 (Public Law 115–10; 51 U.S.C. 20302*
20 *note) that—*

21 (1) *in accordance with the priorities established*
22 *in the most recent Planetary Science Decadal Survey,*
23 *The Administrator shall ensure, to the greatest extent*
24 *practicable, the completion of a balanced set of Dis-*
25 *covery, New Frontiers, and Flagship missions at the*

1 *cadence recommended by the most recent Planetary*
2 *Science Decadal Survey; and*

3 *(2) consistent with the set of missions described*
4 *in paragraph (1), and while maintaining the con-*
5 *tinuity of scientific data and steady development of*
6 *capabilities and technologies, the Administrator may*
7 *seek, if necessary, adjustments to mission priorities,*
8 *schedule, and scope in light of changing budget projec-*
9 *tions.*

10 **SEC. 610. PLANETARY DEFENSE.**

11 *(a) Section 808 of the National Aeronautics and Space*
12 *Administration Authorization Act of 2010 (42 U.S.C.*
13 *18387), is amended in subsection (b) by striking “imple-*
14 *ment, before September 30, 2012,” and inserting “, in co-*
15 *ordination with the NASA Administrator, maintain and*
16 *regularly update”.*

17 *(b) Title 51, United States Code, is amended—*

18 *(1) in section 71103—*

19 *(A) in the section heading, by striking “**De-***
20 ***veloping policy and recommending”***
21 *and inserting “**Policy on near-Earth ob-***
22 ***jects and”***

23 *(B) by striking “Within 2 years after Octo-*
24 *ber 15, 2008, the” and inserting “The”;*

1 (C) after “Policy shall”, by inserting “, in
2 coordination with the Administrator, maintain
3 and regularly update”;

4 (D) by striking “(1) develop”; and

5 (E) in paragraph (2), by striking “(2) rec-
6 ommend” and inserting “recommendations for”;
7 and

8 (2) in chapter 711—

9 (A) by adding at the end the following:

10 **“§ 71105. Planetary defense coordination office**

11 “(a) OFFICE.—As directed in section 10825 of the Na-
12 tional Aeronautics and Space Administration Authoriza-
13 tion Act of 2022 (Public Law 117–167), the Administrator
14 shall maintain an office within the Planetary Science Divi-
15 sion of the Science Mission Directorate to be known as the
16 ‘Planetary Defense Coordination Office’.

17 “(b) RESPONSIBILITIES.—Consistent with the direc-
18 tion in section 10825 of the National Aeronautics and
19 Space Administration Authorization Act of 2022 (Public
20 Law 117–167) the Planetary Defense Coordination Office
21 under subsection (a) shall—

22 “(1) plan, develop, and implement a program to
23 survey threats posed by near-Earth objects equal to or
24 grater than 140 meters in diameter, as required by
25 section 321(d)(1) of the National Aeronautics and

1 *Space Administration Authorization Act of 2005*
2 *(Public Law 109–155; 119 Stat. 2922; 51 U.S.C.*
3 *71101 note prec.);*

4 “(2) *identify, track, and characterize potentially*
5 *hazardous near-Earth objects, issue warnings of the*
6 *effects of potential impacts of such objects, and inves-*
7 *tigate strategies and technologies for mitigating the*
8 *potential impacts of such objects; and*

9 “(3) *assist in coordinating government planning*
10 *for a response to a potential impact of a near-Earth*
11 *objects.”; and*

12 (B) *in the table of contents—*

13 (i) *by adding at the end the following*
14 *new item:*

“71105. *Planetary Defense Coordination Office.”; and*

15 (ii) *by amending the item relating to*
16 *section 71103 to read as follows:*

“71103. *Policy on near-Earth objects and responsible Federal agency.”.*

17 **SEC. 611. LUNAR DISCOVERY AND EXPLORATION.**

18 (a) *IN GENERAL.—The Administrator may carry out,*
19 *within the Science Mission Directorate, a program to ac-*
20 *complish science objectives for the Moon, with an organiza-*
21 *tional structure that aligns responsibility, authority, and*
22 *accountability, as recommended by the most recent decadal*
23 *survey for planetary science and astrobiology.*

1 (b) *OBJECTIVES AND REQUIREMENTS.*—*In carrying*
2 *out the program in subsection (a), the Administrator shall*
3 *direct the Science Mission Directorate, in consultation with*
4 *the Exploration Systems Development Mission Directorate*
5 *and the Space Technology Mission Directorate, to define*
6 *high-priority lunar science objectives informed by decadal*
7 *and other scientific consensus recommendations, and re-*
8 *lated requirements of an integrated Artemis science strategy*
9 *for human and robotic missions to the Moon.*

10 (c) *INSTRUMENTATION.*—*The program in subsection*
11 *(a) should assess the need for and facilitate the development*
12 *of instrumentation to support the scientific exploration of*
13 *the Moon.*

14 **SEC. 612. COMMERCIAL LUNAR PAYLOAD SERVICES.**

15 (a) *SENSE OF CONGRESS.*—*It is the sense of Congress*
16 *that—*

17 (1) *the Administrator’s encouragement and sup-*
18 *port for commercial services for lunar surface delivery*
19 *capabilities and other related services serves the na-*
20 *tional interest; and*

21 (2) *commercial providers benefit from an ap-*
22 *proach that places low-cost, noncritical instruments*
23 *on initial deliveries using small- and medium-size*
24 *landers before proceeding to larger landers for more*
25 *complex payloads.*

1 **(b) COMMERCIAL LUNAR PAYLOAD SERVICES.**—*The*
2 *Administrator is authorized to establish a Commercial*
3 *Lunar Payload Services program for the purposes of pro-*
4 *curing, from one or more United States commercial pro-*
5 *viders, services for delivery of NASA science payloads, and*
6 *the payloads of other NASA mission directorates, as appro-*
7 *priate and practicable, to the lunar surface.*

8 **(c) RELATIONSHIP TO OTHER MISSION DIREC-**
9 **TORATES.**—*A Mission Directorate that seeks to obtain com-*
10 *mercial lunar payload services under the program estab-*
11 *lished in subsection (b) shall provide funding for—*

12 (1) *any payload, instrument or other item spon-*
13 *sored by the Mission Directorate for delivery through*
14 *the program; and*

15 (2) *the cost of the commercial lunar payload*
16 *services obtained on behalf of the Mission Directorate.*

17 **(d) IMPLEMENTATION.**—*In implementing any such ac-*
18 *tivities pursuant to subsection (b), the Administrator*
19 *shall—*

20 (1) *conduct updated market research on the com-*
21 *mercial lunar economy and identify any changes*
22 *since the last market analysis;*

23 (2) *assess NASA's needs from and role in and*
24 *contribution to the commercial lunar delivery market;*

1 (3) based on such needs identified in paragraph
2 (2), assess the effectiveness of the task order approach
3 in advancing commercial development of lunar deliv-
4 ery services, including an assessment of the appro-
5 priate number of providers necessary to support
6 NASA commercial lunar delivery needs, and identify
7 any challenges and recommendations for improve-
8 ment; and

9 (4) strengthen procedures related to the selection,
10 manifesting, interfaces, and requirements of payloads
11 and other relevant factors that could contribute to
12 minimizing future NASA-directed changes to projects
13 following commercial lunar payload service contract
14 awards.

15 (e) *MANAGEMENT PLAN*.—Not later than 90 days from
16 the date of the enactment of this Act, the Administrator
17 shall, informed by the activities conducted under subsection
18 (c), prepare and implement a management plan with clear
19 leadership authority and responsibility for the program au-
20 thorized in subsection (b).

21 (f) *BRIEFINGS*.—Not later than 180 days from the date
22 of the enactment of this Act, the Administrator shall brief
23 the appropriate committees of Congress on the implementa-
24 tion of the management plan in subsection (d).

1 (g) *COORDINATION.*—*The Administrator shall ensure*
2 *coordination between Mission Directorates and the Moon to*
3 *Mars Program on the administration of the program in*
4 *subsection (b) to ensure alignment of goals for lunar deliv-*
5 *ery services.*

6 **SEC. 613. PLANETARY AND LUNAR OPERATIONS.**

7 (a) *SENSE OF CONGRESS.*—*It is the sense of Congress*
8 *that—*

9 (1) *existing NASA lunar and Martian orbital*
10 *missions are operating well beyond their planned*
11 *mission lifespans;*

12 (2) *NASA relies on this aging infrastructure for*
13 *observations, communications relay, and other oper-*
14 *ations to support critical NASA missions; and*

15 (3) *the United States plans to increase its activi-*
16 *ties on and around both the Moon and Mars in com-*
17 *ing years.*

18 (b) *PLAN.*—*The Administrator shall develop a plan to*
19 *ensure continuity of operations and sufficient observational*
20 *and operational capabilities on and around the Moon and*
21 *Mars necessary to continue to enable a robust science pro-*
22 *gram and human exploration program for the Moon and*
23 *Mars well into the future. Such plan shall consider opportu-*
24 *nities to engage both private and international partners in*
25 *future operations.*

1 **SEC. 614. MARS SAMPLE RETURN.**

2 (a) *IN GENERAL.*—*The Administrator shall, subject to*
3 *the availability of appropriations, lead a Mars Sample Re-*
4 *turn program to enable the return to Earth of scientifically-*
5 *selected samples from the surface of Mars for study in terres-*
6 *trial laboratories, consistent with the recommendations of*
7 *the National Academies decadal surveys for planetary*
8 *science.*

9 (b) *APPROACH.*—*The Administrator shall pursue the*
10 *program in subsection (a) on a timeline and in a manner*
11 *necessary to—*

12 (1) *Sustain United States leadership in the sci-*
13 *entific exploration of Mars;*

14 (2) *maintain NASA capabilities to land and op-*
15 *erate robotic spacecraft on the surface of Mars;*

16 (3) *preserve the relevant unique and long-term*
17 *institutional expertise; and*

18 (4) *maintain a balanced and robust planetary*
19 *science division portfolio without requiring signifi-*
20 *cant increases to the NASA budget.*

21 (c) *IMPLEMENTATION PLAN.*—*The Administrator*
22 *shall, as soon as practicable and no later than 180 days*
23 *after the date of enactment of this Act, transmit to the ap-*
24 *propriate committees of Congress a plan and timeline for*
25 *the implementation of a Mars Sample Return program pur-*
26 *suant to this section with the goal of enabling the highest*

1 *scientific return for the resources invested. Such plan shall*
2 *include a design and mission architecture and establish re-*
3 *alistic cost and schedule estimates to enable such goal.*

4 **SEC. 615. HUBBLE SPACE TELESCOPE SERVICING.**

5 *Not later than 90 days from the date of the enactment*
6 *of this Act, the Administrator shall submit a report to the*
7 *appropriate committees of Congress that includes the results*
8 *of any study or studies conducted in the last five years re-*
9 *garding the technical feasibility of safely reboosting the*
10 *Hubble Space Telescope, including any such studies regard-*
11 *ing the technical feasibility of using private sector capabili-*
12 *ties.*

13 **SEC. 616. GREAT OBSERVATORIES MISSION AND TECH-**
14 **NOLOGY MATURATION.**

15 *(a) ESTABLISHMENT.—The Administrator may estab-*
16 *lish a Great Observatories Mission and Technology Matura-*
17 *tion project (referred to in this section as a “Project”) to*
18 *mature the large-scale space-based mission concepts and*
19 *technologies needed for a future astrophysics mission, as in-*
20 *formed by the recommendations of the most recent decadal*
21 *survey in astronomy and astrophysics.*

22 *(b) ACTIVITIES.—A project established under sub-*
23 *section (b) shall inform the design and development of fu-*
24 *ture large-scale space-based Astrophysics missions by con-*
25 *ducting activities which may include—*

1 (1) *assessing the appropriate scope for any fu-*
2 *ture mission;*

3 (2) *determining the range of capabilities and*
4 *technology readiness of such capabilities needed for a*
5 *mission; and*

6 (3) *informing the development and maturation*
7 *of science and technologies needed for such mission.*

8 (c) *COSTS.*—*The independent life-cycle cost estimate*
9 *conducted under section 30307 of title 51, United States*
10 *Code, as amended by this Act, for a large-scale space-based*
11 *mission resulting from successful completion of a Project*
12 *established under subsection (b) shall include an accounting*
13 *of all costs spent on maturation of the mission through such*
14 *Project.*

15 (d) *REPORT.*—*Starting on February 1, 2025, and con-*
16 *tinuing annually thereafter, the Administrator shall submit*
17 *to the appropriate committees of Congress a report on the*
18 *progress and impacts of any Projects established under sub-*
19 *section (b) within Astrophysics programs.*

20 **SEC. 617. NANCY GRACE ROMAN TELESCOPE.**

21 *The Administrator shall continue development of the*
22 *Nancy Grace Roman Space Telescope as directed in sub-*
23 *section 10823(b) of the National Aeronautics and Space Ad-*
24 *ministration Authorization Act of 2022 (Public Law 117–*
25 *167).*

1 **SEC. 618. CHANDRA X-RAY OBSERVATORY.**

2 *The Administrator shall, to the greatest extent prac-*
3 *ticable, take no action to reduce or otherwise preclude con-*
4 *tinuation of the science operations of the Chandra X-Ray*
5 *Telescope prior to the completion and consideration of the*
6 *next triennial review of mission extensions for the Astro-*
7 *physics division conducted pursuant to section 30504 of*
8 *title 51, United States Code and NASA's ongoing oper-*
9 *ations paradigm change review.*

10 **SEC. 619. HELIOPHYSICS RESEARCH.**

11 *(a) SENSE OF CONGRESS.—It is the sense of Congress*
12 *that—*

13 *(1) NASA heliophysics research advances the sci-*
14 *entific understanding of the Sun, its impact on the*
15 *Earth and near-Earth environment, and the Sun's*
16 *interactions with other bodies in the solar system, the*
17 *interplanetary medium, and the interstellar medium;*

18 *(2) fundamental science supported by the*
19 *Heliophysics division is critical to improving space*
20 *weather observations forecasting capabilities, which*
21 *contribute to—*

22 *(A) fortifying national security and other*
23 *critically important space-based and ground-*
24 *based assets;*

25 *(B) improving the resilience of the Nation's*
26 *energy infrastructure; and*

1 (C) protecting human health in space; and
2 (3) the Heliophysics Division should continue to
3 maximize the scientific return on investment of its
4 portfolio through maintaining a balanced portfolio
5 that includes research and analysis, including multi-
6 disciplinary research initiatives, technology develop-
7 ment, space-based missions and suborbital flight
8 projects that include both directed and strategic mis-
9 sions and principal investigator-led, competitively so-
10 solicited missions, informed by the science priorities
11 and guidance of the most recent decadal survey in
12 solar and space physics.

13 (b) PROGRAM MANAGEMENT.—The Administrator
14 shall seek to—

15 (1) maintain a regular Explorer Announcement
16 of Opportunity cadence and alternate between small
17 and mid-sized missions; and

18 (2) enable a regular selection of Missions of Op-
19 portunity.

20 **SEC. 620. STUDY ON COMMERCIAL SPACE WEATHER DATA.**

21 (a) STUDY.—The Administrator, in consultation with
22 the Administrator of the National Oceanic and Atmospheric
23 Administration, shall conduct a study of the extent to which
24 commercially-available data could advance space weather
25 research, including the relevant space weather research pri-

1 *ortities of the most recent decadal survey on solar and space*
2 *physics.*

3 *(b) CONTENTS.—The study shall include—*

4 *(1) an assessment of commercial capabilities and*
5 *commercial data that meets or exceeds the science and*
6 *technical standards and requirements of the Adminis-*
7 *tration, which may include—*

8 *(A) data that is generated or able to be gen-*
9 *erated by commercial providers;*

10 *(B) commercially-available small spacecraft;*

11 *(C) opportunities for hosted NASA payloads*
12 *on commercial spacecraft; and*

13 *(D) commercial solutions for data proc-*
14 *essing applicable to space weather science;*

15 *(2) recommendations and opportunities for the*
16 *Federal Government to facilitate the use of commer-*
17 *cially available options for space weather data rel-*
18 *evant to advancing the Administration’s space weath-*
19 *er research and development activities consistent with*
20 *the most recent National Academies decadal survey,*
21 *without reducing quality of data; and*

22 *(3) options, where appropriate, for potential*
23 *partnerships or use of NASA prize authority and*
24 *competitions, as appropriate and practicable, to ob-*

1 tain access to such data identified in paragraph (1)
2 that—

3 (A) meets or exceeds the science and tech-
4 nical standards and requirements of the Admin-
5 istration; and

6 (B) are not duplicative of activities con-
7 ducted pursuant to chapter 606 of title 51,
8 United States Code.

9 (c) *REPORT.*—Not later than 270 days after the date
10 of enactment of this Act, the Administrator shall transmit
11 a report to the appropriate committees of Congress con-
12 taining the results of the study provided under subsection
13 (a).

14 **SEC. 621. GEOSPACE DYNAMICS CONSTELLATION.**

15 (a) *SENSE OF CONGRESS.*—It is the sense of Congress
16 that the Geospace Dynamics Constellation mission could en-
17 able scientific discoveries that will transform understanding
18 of the processes that govern the dynamics of the Earth's
19 upper atmospheric envelope that surrounds and protects the
20 planet.

21 (b) *ASSESSMENT.*—Not later than September 5, 2024,
22 The Administrator shall transmit to the appropriate com-
23 mittees of Congress a report regarding the schedule and
24 budget profile to launch the Geospace Dynamics Constella-

1 *tion mission by the end of the decade to fulfill the rec-*
2 *ommendations of the heliophysics decadal survey.*

3 **SEC. 622. TECHNOLOGY DEVELOPMENT FOR WILDLAND**
4 **FIRE SCIENCE, MANAGEMENT, AND MITIGA-**
5 **TION.**

6 *(a) IN GENERAL.—The Administrator, acting through*
7 *the Associate Director of the Earth Science Division for*
8 *Earth Action, shall establish a project for science and tech-*
9 *nology development for wildland fire management and*
10 *mitigation (referred to in this section as “FireSense”).*

11 *(b) PURPOSE.—The purpose of FireSense is to co-de-*
12 *velop, deploy, and support NASA’s application of advanced*
13 *science, data, and technology capabilities to enable measur-*
14 *able improvement in United States wildland fire manage-*
15 *ment and mitigation across the fire cycle, including pre-*
16 *fire, active fire, and post-fire phases.*

17 *(c) OBJECTIVES.—In establishing FireSense, the Ad-*
18 *ministrator shall seek input from relevant stakeholders and*
19 *shall align FireSense with the goal for NASA’s Earth*
20 *science and applications program set forth in section 60501*
21 *of title 51, United States Code, consider relevant rec-*
22 *ommendations of the most recent decadal survey on Earth*
23 *science and applications from space, and shall, to the extent*
24 *practicable, focus on the following objectives:*

1 (1) *Enhanced predictive modeling and early*
2 *warning systems for wildland fire detection and pre-*
3 *vention.*

4 (2) *Developing remote sensing technologies and*
5 *data analysis tools to monitor fire-prone areas.*

6 (3) *Transitioning wildland fire management*
7 *technologies to operational users, including agencies,*
8 *private sector entities, and academic institutions.*

9 (4) *Conducting research to understand the im-*
10 *pacts of climate change on wildland fire frequency*
11 *and intensity.*

12 (5) *Supporting post-fire recovery and ecosystem*
13 *restoration through advanced technologies and data.*

14 (6) *Providing necessary technical assistance to*
15 *operational users to receive, process, and make use of*
16 *wildland fire science, data, and technology resources.*

17 (7) *Any additional objectives as determined nec-*
18 *essary by the Administrator to satisfy the purpose de-*
19 *scribed in subsection (b).*

20 (d) *INTERAGENCY COORDINATION.*—*In implementing*
21 *FireSense, the Administrator shall, as practicable and ap-*
22 *propriate, coordinate with relevant Federal, State, and*
23 *local agencies to support wildland fire science, data, and*
24 *technology development activities across all phases of the*

1 *fire cycle, including prevention, detection, response, and re-*
2 *covery.*

3 (e) *OPERATIONAL SUPPORT.—The Administrator*
4 *shall, to the extent practicable and in collaboration with*
5 *other relevant Federal agencies, continue to provide nec-*
6 *essary scientific and technical support to enhance wildland*
7 *fire mitigation efforts to operational users, including the*
8 *following:*

9 (1) *Relevant Federal agencies, as determined ap-*
10 *propriate by the Administrator.*

11 (2) *State, local, and Tribal governments and or-*
12 *ganizations.*

13 (3) *Private sector entities.*

14 (4) *Academic institutions, including colleges,*
15 *universities, and wildland fire research institutions.*

16 (f) *DATA SHARING AND COLLABORATION.—The Ad-*
17 *ministrator shall facilitate the sharing of data, tools, and*
18 *research findings with operational users and other relevant*
19 *stakeholders to ensure effective use of NASA’s capabilities*
20 *in wildland fire management.*

21 (g) *FIRESENSE PROJECT EVALUATION.—The Admin-*
22 *istrator shall periodically evaluate the effectiveness of*
23 *FireSense and make necessary adjustments to improve its*
24 *impact on wildland fire management.*

1 (h) *REPORT.*—Not later than one year after the date
2 of the enactment of this Act and annually thereafter for five
3 years, the Administrator shall submit to the appropriate
4 committees of Congress a report on the activities and ac-
5 complishments of FireSense, including the following:

6 (1) *An assessment of interagency coordination ef-*
7 *forts.*

8 (2) *FireSense’s impact on wildland fire manage-*
9 *ment efforts.*

10 (3) *A list of emerging wildland fire management*
11 *technologies and opportunities that may be considered*
12 *for further research, development, demonstration, and*
13 *deployment.*

14 (4) *An assessment of existing challenges to effec-*
15 *tive coordination with operational users, including*
16 *State, local, and Tribal governments.*

17 **SEC. 623. IMPLEMENTATION OF RECOMMENDATIONS BY**

18 **THE NATIONAL WILDLAND FIRE MANAGE-**

19 **MENT AND MITIGATION COMMISSION.**

20 (a) *FINDINGS.*—Congress finds the following:

21 (1) *Wildland fires pose a significant threat to*
22 *public safety, property, and natural resources.*

23 (2) *The National Wildland Fire Management*
24 *and Mitigation Commission (in this section referred*
25 *to as the “Commission”) has provided critical rec-*

1 *ommendations for enhancing wildland fire science,*
2 *data, and technology resources.*

3 (3) *The Administration, through the Science*
4 *Mission Directorate, has the capability to support*
5 *and enhance wildland fire management through its*
6 *advanced research and technological expertise.*

7 (b) *INCORPORATION OF RECOMMENDATIONS.—The Ad-*
8 *ministrator, in accordance with the goal for NASA’s Earth*
9 *science and applications program set forth in section 60501*
10 *of title 51, United States Code, and relevant recommenda-*
11 *tions of the most recent decadal survey on Earth science*
12 *and applications from space, shall incorporate the rec-*
13 *ommendations of the Commission, to the extent practicable,*
14 *which may include continuing to carry out the following:*

15 (1) *Enhancing the collection, analysis, and dis-*
16 *semination of data related to wildland fires, includ-*
17 *ing satellite and remote sensing data.*

18 (2) *Supporting research and development*
19 *projects aimed at improving wildland fire prediction,*
20 *prevention, response, and recovery.*

21 (3) *Developing and deploying technologies that*
22 *can assist in monitoring, detecting, and mitigating*
23 *wildland fires.*

1 (4) *Conducting studies on the impact of climate*
2 *change on wildland fire behavior, frequency, and in-*
3 *tensity.*

4 (c) *INTERAGENCY COORDINATION.—The Adminis-*
5 *trator shall continue to coordinate, as practicable, with*
6 *other Federal, State, local, and Tribal entities to integrate*
7 *the Commission’s recommendations into broader wildland*
8 *fire management efforts. Such coordination may include the*
9 *following:*

10 (1) *Facilitating the sharing of wildland fire-re-*
11 *lated data and research findings with relevant agen-*
12 *cies and stakeholders.*

13 (2) *Participating in joint initiatives and*
14 *projects aimed at enhancing wildland fire manage-*
15 *ment capabilities.*

16 (d) *EVALUATION.—The Administrator shall conduct*
17 *periodic evaluations of NASA’s efforts to incorporate the*
18 *Commission’s recommendations and make adjustments as*
19 *necessary to maximize the effectiveness of such recommenda-*
20 *tions to support wildland fire mitigation and management*
21 *efforts.*

22 (e) *REPORTING.—Not later than one year after the*
23 *date of the enactment of this Act, the Administrator shall*
24 *submit to the appropriate committees of Congress a report*
25 *detailing the activities undertaken by NASA to implement*

1 *the Commission’s recommendations, including the fol-*
2 *lowing:*

3 (1) *A summary of research and development*
4 *projects initiated or supported.*

5 (2) *An assessment of the impact of such activities*
6 *on wildland fire management and mitigation efforts.*

7 (3) *Any challenges or obstacles encountered in*
8 *implementing such recommendations.*

9 **TITLE VII—STEM EDUCATION**

10 **SEC. 701. NATIONAL SPACE GRANT COLLEGE AND FELLOW-** 11 **SHIP PROGRAM.**

12 (a) *AMENDMENTS.—Title 51, United States Code, is*
13 *amended—*

14 (1) *in section 40303, by striking subsections (d)*
15 *and (e);*

16 (2) *in section 40304—*

17 (A) *by striking subsection (c) and inserting*
18 *the following:*

19 “(c) *SOLICITATIONS.—*

20 “(1) *IN GENERAL.—The Administrator shall*
21 *issue a solicitation from space grant consortia for the*
22 *award of grants or contracts under this section at the*
23 *conclusion of the award cycle for fiscal Year 2020 to*
24 *2024. The Administrator shall implement the alloca-*

1 *tion guidance from section 40304(e) during each fis-*
2 *cal year covered by the award cycle.*

3 “(2) *PROPOSALS.*—*A lead institution of a space*
4 *grant consortium that seeks a grant or contract under*
5 *this section shall submit, on behalf of such space*
6 *grant consortium, an application to the Adminis-*
7 *trator at such time and in such manner and accom-*
8 *panied by such information as the Administrator*
9 *may require.*

10 “(3) *AWARDS.*—*The Administrator shall award*
11 *1 or more multi-year grants or contracts, disbursed in*
12 *annual installments, to the lead institution of an eli-*
13 *gible space grant consortium of—*

14 “(A) *each of the 50 States of the United*
15 *States;*

16 “(B) *the District of Columbia; and*

17 “(C) *the Commonwealth of Puerto Rico.”;*

18 *and*

19 (B) *by inserting after subsection (d) the fol-*
20 *lowing:*

21 “(e) *ALLOCATION OF FUNDING.*—

22 “(1) *PROGRAM IMPLEMENTATION.*—*To carry out*
23 *the purposes set forth in section 40301 of this title,*
24 *each fiscal year, of the funds appropriated for this*
25 *program of that fiscal year, the Administrator shall*

1 *allocate not less than 85 percent among eligible space*
2 *grant consortia as follows:*

3 “(A) *The space grant consortia identified in*
4 *paragraph 40304(c)(3) shall each receive an*
5 *equal share.*

6 “(B) *The territories of Guam and the U.S.*
7 *Virgin Islands shall each receive funds equal to*
8 *one-fifth of the share for each space grant consor-*
9 *tium.*

10 “(2) *PROGRAM ADMINISTRATION.—*

11 “(A) *IN GENERAL.—Each fiscal year, of the*
12 *funds made available for the National Space*
13 *Grant College and Fellowship Program, the Ad-*
14 *ministrator shall allocate not more than 10 per-*
15 *cent for the administration of the program.*

16 “(B) *COSTS COVERED.—The funds allocated*
17 *under paragraph (1)(A) of this section shall*
18 *cover all costs of the Administration associated*
19 *with the administration of the National Space*
20 *Grant College and Fellowship Program, includ-*
21 *ing—*

22 “(i) *direct costs to the program, in-*
23 *cluding costs relating to support services*
24 *and civil service salaries and benefits;*

1 “(ii) indirect general and administra-
2 tive costs of centers and facilities of the Ad-
3 ministration; and

4 “(iii) indirect general and administra-
5 tive costs of the Administration head-
6 quarters.

7 “(3) *SPECIAL OPPORTUNITIES.*—Each fiscal
8 year, of the funds made available for the National
9 Space Grant College and Fellowship program, the Ad-
10 ministrator shall allocate not more than 5 percent to
11 lead institutions of Space Grant Consortia for grants
12 to carry out innovative approaches and programs to
13 further science and education relating to the missions
14 of the Administration pursuant to subsection (b).”.

15 (b) *REVIEW.*—The Administrator shall make arrange-
16 ments for an independent external review of the National
17 Space Grant College and Fellowship Program to—

18 (1) evaluate its management, accomplishments,
19 approach to funding allocation as described in section
20 40303(e) of title 51, United States Code, and respon-
21 siveness to the purposes and goals defined in chapter
22 403 of title 51, United States Code;

23 (2) consider the benefits partnerships with local
24 education agencies, including those in underserved
25 and rural areas, may provide; and

1 (3) propose any statutory updates that may be
2 needed to implement recommendations of the review.

3 (c) *REPORT.*—Not later than nine months after the
4 date of enactment of this Act, the Administrator shall trans-
5 mit a report on the independent external review of the Na-
6 tional Space Grant College and Fellowship Program de-
7 scribed in subsection (a) to the Committee on Science,
8 Space, and Technology of the House of Representatives and
9 the Committee on Commerce, Science, and Transportation
10 of the Senate.

11 **SEC. 702. SKILLED TECHNICAL WORKFORCE EDUCATION**
12 **OUTREACH.**

13 (a) *IN GENERAL.*—The Administrator may conduct or
14 support *STEM* engagement activities that focus on expand-
15 ing opportunities for students to pursue skilled technical
16 workforce occupations in space and aeronautics.

17 (b) *LEVERAGING EXISTING PROGRAMS.*—The Admin-
18 istrator, in conducting activities pursuant to subsection (a),
19 shall consider leveraging, as appropriate, existing programs
20 of NASA or other Federal programs and interagency initia-
21 tives, such as the Manufacturing USA program under sec-
22 tion 34 of the National Institute of Standards and Tech-
23 nology Act (15 U.S.C. 278s).

24 (c) *INCLUSION.*—Activities under subsection (a) may
25 include outreach activities that engage secondary and post-

1 *secondary students, including students at institutions of*
2 *higher education, two-year colleges, and high schools, and*
3 *students in vocational or career and technical education*
4 *programs, and that—*

5 (1) *expose students to careers that require career*
6 *and technical education;*

7 (2) *encourage students to pursue careers that re-*
8 *quire career and technical education; and*

9 (3) *provide students hands-on learning opportu-*
10 *nities to view the manufacturing, assembly, and test-*
11 *ing of NASA-funded space and aeronautical systems,*
12 *as the Administrator considers appropriate and with*
13 *consideration of relevant factors such as workplace*
14 *safety, mission needs, and the protection of sensitive*
15 *and proprietary technologies.*

16 (d) *REPORT.—Not later than one year after the date*
17 *of the enactment of this Act, the Administrator shall submit*
18 *to the appropriate committees of Congress a report on the*
19 *NASA’s activities, and any planned activities, conducted*
20 *pursuant to this section.*

21 (e) *DEFINITIONS.—In this section:*

22 (1) *INSTITUTION OF HIGHER EDUCATION.—The*
23 *term “institution of higher education” has the mean-*
24 *ing given the term in section 101(a) of the Higher*
25 *Education Act of 1965 (20 U.S.C. 1001(a)).*

1 (2) *SKILLED TECHNICAL WORKFORCE*.—The
 2 term “skilled technical workforce” has the meaning
 3 given the term in section 4(b)(3) of the Innovations
 4 in Mentoring, Training, and Apprenticeships Act (42
 5 U.S.C. 1862p note; Public Law 115–402).

6 **TITLE VIII—POLICY/NASA**

7 **SEC. 801. MAJOR PROGRAMS.**

8 Section 30104 of title 51, United States Code, is
 9 amended in subsection (a)(1) by striking “7120.5E, dated
 10 August 14, 2012” and inserting “7120.5F, dated August 3,
 11 2021”.

12 **SEC. 802. NASA ADVISORY COUNCIL.**

13 (a) *CONSULTATION AND ADVICE*.—Section 20113(g) of
 14 title 51, United States Code, is amended by adding “and
 15 Congress” after “advice to the Administration”.

16 (b) *SUNSET*.—Effective September 30, 2028, section
 17 20113(g) of title 51, United States Code, is amended by
 18 striking “and Congress”.

19 **SEC. 803. NASA ASSESSMENT OF EARLY COST ESTIMATES.**

20 Not later than 12 months after the date of the enact-
 21 ment of this Act, the Comptroller General shall transmit
 22 to the appropriate committees of Congress a review of the
 23 development, application, and assessment of early cost esti-
 24 mates made prior to preliminary design review for NASA
 25 missions. The review may include—

1 (1) *an assessment of NASA processes related to*
2 *the formation and evaluation of proposed and early-*
3 *stage cost estimates;*

4 (2) *an evaluation of NASA’s monitoring and*
5 *management of cost estimates throughout mission de-*
6 *velopment, in accordance with section 10861(b)(4) of*
7 *the National Aeronautics and Space Administration*
8 *Authorization Act of 2022 (Public Law 117–167);*
9 *and*

10 (3) *any such recommendations as the Comp-*
11 *troller General determines appropriate.*

12 **SEC. 804. INDEPENDENT COST ESTIMATE.**

13 *Section 30307 of title 51, United States Code, is*
14 *amended—*

15 (1) *in the section heading, by striking “**anal-***
16 ***ysis**” and inserting “**estimate**”; and*

17 (2) *in subsection (b)—*

18 (A) *by striking “Before any funds may be*
19 *obligated for implementation” and inserting*
20 *“After the Administrator completes the prelimi-*
21 *nary design review”;*

22 (B) *by striking “analysis” and inserting*
23 *“estimate”; and*

24 (C) *by inserting after the first sentence, “No*
25 *funds may be obligated for implementation of the*

1 *project before the Administrator reports the re-*
2 *sults of the life-cycle cost estimate to Congress.”.*

3 **SEC. 805. OFFICE OF TECHNOLOGY, POLICY, AND STRATEGY**
4 **REPORT.**

5 *Not later than January 1, 2025, and annually there-*
6 *after, the Office of Technology, Policy, and Strategy shall*
7 *prepare and submit to the appropriate committees of Con-*
8 *gress a report describing the efforts of the Office during the*
9 *previous calendar year and priorities of the Office for the*
10 *upcoming calendar year, as practicable.*

11 **SEC. 806. AUTHORIZATION FOR THE TRANSFER TO NASA OF**
12 **FUNDS FROM OTHER AGENCIES FOR SCI-**
13 **ENTIFIC OR ENGINEERING RESEARCH OR**
14 **EDUCATION.**

15 *(a) IN GENERAL.—Subsection (f) of section 20113 of*
16 *title 51, United States Code, is amended—*

17 *(1) by striking “In the performance of its func-*
18 *tions” and inserting the following:*

19 *“(1) IN GENERAL.—In the performance of its*
20 *functions”;* and

21 *(2) by adding at the end the following new para-*
22 *graph:*

23 *“(2) TREATMENT.—Funds available to any de-*
24 *partment or agency of the Federal Government for*
25 *scientific or engineering research or education, or the*

1 *provision of facilities therefor, shall, subject to the ap-*
2 *proval of the head of such department or agency or*
3 *as delegated pursuant to such department's or agen-*
4 *cy's regulation, be available for transfer, in whole or*
5 *in part, to the Administration for such use as is con-*
6 *sistent with the purposes for which such funds were*
7 *appropriated. Funds so transferred shall be merged*
8 *with the appropriation to which transferred, except*
9 *that such transferred funds shall be limited to the*
10 *awarding of grants or cooperative agreements for sci-*
11 *entific or engineering research or education.”.*

12 (b) *ANNUAL INFORMATION ON FUNDS TRANS-*
13 *FERRED.—*

14 (1) *IN GENERAL.—Not later than two years after*
15 *the date of the enactment of this section, the Adminis-*
16 *trator shall include in the annual budget justification*
17 *materials of the Administration, as submitted to Con-*
18 *gress with the President's budget request under section*
19 *1105 of title 31, United States Code, information de-*
20 *scribing the activities conducted under subsection (f)*
21 *of section 20113 of title 51, United States Code (as*
22 *amended by subsection (a)), during the immediately*
23 *preceding fiscal year.*

24 (2) *CONTENTS.—The information referred to in*
25 *paragraph (1) shall contain a description of each*

1 *transfer of funds under the authority provided for in*
2 *paragraph (2) of subsection (f) of section 20113 of*
3 *title 51, United States Code (as added and amended,*
4 *respectively, by this section), during the immediately*
5 *preceding fiscal year, including the following:*

6 *(A) An identification of the department or*
7 *agency of the Federal Government from which*
8 *such funds were transferred.*

9 *(B) The total amount of funds so trans-*
10 *ferred, disaggregated by each such department or*
11 *agency.*

12 *(C) The purposes for which such funds were*
13 *appropriated to each agency or department.*

14 *(D) The program or activity of the Admin-*
15 *istration to which such funds were made avail-*
16 *able by each such transfer.*

17 *(E) The purposes of each such administra-*
18 *tion program or activity, and the amount of*
19 *funding appropriated to the Administration for*
20 *such purposes.*

21 *(c) REPORT.—Not later than three years after the date*
22 *of enactment of the section, the Administrator of the Admin-*
23 *istration shall submit to the Committee on Science, Space,*
24 *and Technology of the House of Representatives and the*

1 *Committee on Commerce, Science, and Transportation of*
2 *the Senate a report that includes the following:*

3 (1) *A summary of the value of the authority pro-*
4 *vided for in paragraph (2) of subsection (f) of section*
5 *209113 of title 51, United States Code (as added and*
6 *amended, respectively, by this section), including the*
7 *extent to which such authority has benefited the Ad-*
8 *ministration and its ability to meet its needs, achieve*
9 *its mission, or more effectively conduct interagency*
10 *collaborations.*

11 (2) *An identification of any barriers or chal-*
12 *lenges to implementing such authority, or otherwise to*
13 *managing funding required to conduct joint programs*
14 *and award jointly funded grants and cooperative*
15 *agreements by the administration with other Federal*
16 *departments and agencies to advance the missions of*
17 *each such department and agency.*

18 **SEC. 807. PROCEDURE FOR LAUNCH SERVICES RISK MITI-**
19 **GATION.**

20 (a) *ASSESSMENT.*—*The Administrator shall enter into*
21 *an arrangement for an independent external assessment of*
22 *the effectiveness and efficiency of NASA’s approach towards*
23 *launch services risk mitigation in the Administration’s Pro-*
24 *cedural Requirements 8610.7D.*

1 (b) *REPORT.*—Not later than 180 days from the date
2 of enactment of this Act, the Administrator shall submit
3 to the appropriate committees of Congress the following:

4 (1) *The report of the assessment conducted under*
5 *subsection (a).*

6 (2) *NASA response to the findings of the report,*
7 *if any.*

8 **SEC. 808. REPORT ON MERITS AND OPTIONS FOR ESTAB-**
9 **LISHING AN INSTITUTE RELATING TO SPACE**
10 **RESOURCES.**

11 (a) *REPORT.*—Not later than 180 days after the date
12 of the enactment of this Act, the Administrator and Sec-
13 retary shall jointly submit to the appropriate committees
14 of Congress a report on the merits of, and options for, estab-
15 lishing an institute relating to space resources to advance
16 the objectives of NASA and the Department in maintaining
17 United States preeminence in space. Such objectives shall
18 include the following:

19 (1) *Identifying, developing, and distributing*
20 *space resources, including by encouraging the develop-*
21 *ment of foundational science, industrial capability,*
22 *and technology.*

23 (2) *Reducing the technological and business risks*
24 *associated with identifying, developing, and distrib-*
25 *uting space resources.*

1 (3) *Research to maximize the responsible use of*
2 *space resources.*

3 (4) *Developing options for using space resources*
4 *to carry out the following.*

5 (A) *Support current and future space archi-*
6 *tectures, programs, business, and missions.*

7 (B) *Enable such architectures, programs,*
8 *business, and missions that would not otherwise*
9 *be possible.*

10 (C) *Supplement the supply of such resources*
11 *available on Earth.*

12 (b) *ADDITIONAL MATTERS.—The report required*
13 *under subsection (a) shall also include the following assess-*
14 *ments of the Administrator and the Secretary:*

15 (1) *Whether a virtual or physical institute relat-*
16 *ing to space resources is most cost effective and ap-*
17 *propriate.*

18 (2) *Whether partnering with institutions of high-*
19 *er education and the aerospace industry, and the ex-*
20 *tractive industry as appropriate, would be effective in*
21 *increasing information available to the institute with*
22 *respect to advancing the objectives described in such*
23 *subsection.*

24 (c) *DEFINITIONS.—In this section:*

1 (1) *DEPARTMENT.*—*The term “Department”*
2 *means the Department of Commerce.*

3 (2) *EXTRACTIVE INDUSTRY.*—*The term “extrac-*
4 *tive industry” means companies and individuals in-*
5 *volved in the processes of extracting, including min-*
6 *ing, quarrying, drilling, and dredging, raw, natural*
7 *materials or energy sources.*

8 (3) *INSTITUTE OF HIGHER EDUCATION.*—*The*
9 *term “institution of higher education” has the mean-*
10 *ing given such term in section 101(a) of the Higher*
11 *Education Act of 1965 (20 U.S.C. 1001(a)).*

12 (4) *SECRETARY.*—*The term “Secretary” means*
13 *the Secretary of Commerce.*

14 (5) *SPACE RESOURCE.*—

15 (A) *IN GENERAL.*—*The term “space re-*
16 *source” means an abiotic resource in situ in*
17 *outer space.*

18 (B) *INCLUSIONS.*—*The term “space re-*
19 *source” includes a raw, natural material or en-*
20 *ergy source.*

21 **SEC. 809. REPORTS TO CONGRESS.**

22 (a) *CONGRESSIONAL REPORTS AND NOTICES.*—*Any*
23 *report or notice provided to Congress by NASA shall be pro-*
24 *vided to the Committee on Science, Space, and Technology*
25 *of the House of Representatives and the Committee on Com-*

1 *merce, Science, and Transportation of the Senate, concur-*
2 *rently with its delivery to any other Committee or office.*

3 (b) *REPORTS ON INTERNATIONAL AGREEMENTS.—If*
4 *the United States becomes a signatory to an international*
5 *agreement concerning outer space activities, the Adminis-*
6 *trator shall provide to the Committee on Science, Space,*
7 *and Technology of the House of Representatives and the*
8 *Committee on Commerce, Science, and Transportation of*
9 *the Senate a report containing a copy of such agreement.*

10 **SEC. 810. CONTRACT FLEXIBILITY.**

11 *Congress finds that NASA FAR Supplement (NFS)*
12 *1852.242-72, Denied Access to NASA Facilities instructs*
13 *that for the period that NASA facilities were not accessible*
14 *to contractor employees, the contracting officer may adjust*
15 *the contract performance or delivery schedule, forego the*
16 *work, reschedule the work, or consider requests for equitable*
17 *adjustment to the contract.*

18 **SEC. 811. GAO REPORT.**

19 *Not later than one year after the date of the enactment*
20 *of this Act, the Comptroller General of the United States*
21 *shall transmit to the appropriate committees of Congress*
22 *a review of fire and emergency services at NASA launch*
23 *and reentry facilities that assesses the following:*

24 (1) *Current capabilities and projected demands*
25 *for NASA-provided fire and emergency services.*

1 (2) *How demand for NASA-provided fire and*
2 *emergency services have been impacted by the fol-*
3 *lowing:*

4 (A) *An increased rate of launch and reentry*
5 *operations.*

6 (B) *An increased number of leases with*
7 *commercial launch and reentry service providers*
8 *for use of NASA property.*

9 (3) *Current fire and emergency services provided*
10 *by commercial providers to support launch and re-*
11 *entry operations that are conducted—*

12 (A) *to fulfill a contractual obligation with*
13 *NASA; or*

14 (B) *for non-NASA purposes using NASA-*
15 *leased property.*

16 (4) *Whether NASA-provided and commercially-*
17 *provided fire and emergency services are able to meet*
18 *current and projected demands and support all fire*
19 *response areas on NASA property.*

20 **SEC. 812. NASA PUBLIC-PRIVATE TALENT PROGRAM.**

21 *Section 20113 of title 51, United States Code, is*
22 *amended by adding at the end the following new subsection:*

23 “(o) **PUBLIC-PRIVATE TALENT PROGRAM.**—

24 “(1) **ASSIGNMENT AUTHORITY.**—*Under policies*
25 *and procedures prescribed by the Administration, the*

1 *Administrator may, with the agreement of a private*
2 *sector entity and the consent of an employee of the*
3 *Administration or of such entity, arrange for the tem-*
4 *porary assignment of such employee of the Adminis-*
5 *tration to such private sector entity, or of such em-*
6 *ployee of such entity to the Administration, as the*
7 *case may be.*

8 “(2) *AGREEMENTS.*—

9 “(A) *IN GENERAL.*—*The Administrator*
10 *shall provide for a written agreement among the*
11 *Administration, the private sector entity, and*
12 *the employee concerned regarding the terms and*
13 *conditions of the employee’s assignment under*
14 *this subsection. The agreement shall—*

15 “(i) *require that the employee of the*
16 *Administration, upon completion of the as-*
17 *signment, will serve in the Administration,*
18 *or elsewhere in the civil service if approved*
19 *by the Administrator, for a period equal to*
20 *twice the length of the assignment;*

21 “(ii) *provide that if the employee of the*
22 *Administration or of the private sector enti-*
23 *ty (as the case may be) fails to carry out*
24 *the agreement, such employee shall be liable*
25 *to the United States for payment of all ex-*

1 *penses of the assignment, unless such failure*
2 *was for good and sufficient reason, as deter-*
3 *mined by the Administrator; and*

4 *“(iii) contain language ensuring that*
5 *such employee of the Administration or of*
6 *the private sector entity (as the case may*
7 *be) does not improperly use predecisional or*
8 *draft deliberative information that such em-*
9 *ployee may be privy to or aware of related*
10 *to Administration programing, budgeting,*
11 *resourcing, acquisition, or procurement for*
12 *the benefit or advantage of the private sector*
13 *entity.*

14 *“(B) TREATMENT.—An amount for which*
15 *an employee is liable under subparagraph (A)*
16 *shall be treated as a debt due the United States.*

17 *“(C) WAIVER.—The Administrator may*
18 *waive, in whole or in part, collection of a debt*
19 *described in subparagraph (B) based on a deter-*
20 *mination that the collection would be against eq-*
21 *uity and good conscience and not in the best in-*
22 *terests of the United States, after taking into ac-*
23 *count any indication of fraud, misrepresenta-*
24 *tion, fault, or lack of good faith on the part of*
25 *the employee concerned.*

1 “(3) *TERMINATION.*—*An assignment under this*
2 *section may, at any time and for any reason, be ter-*
3 *minated by the Administration or the private-sector*
4 *entity concerned, as the case may be.*

5 “(4) *DURATION.*—

6 “(A) *IN GENERAL.*—*An assignment under*
7 *this subsection shall be for a period of not less*
8 *than three months and not more than two years,*
9 *renewable up to a total of three years. An em-*
10 *ployee of the Administration may not be as-*
11 *signed under this subsection for more than a*
12 *total of three years inclusive of all such assign-*
13 *ments.*

14 “(B) *EXTENSION.*—*An assignment under*
15 *this subsection may be for a period in excess of*
16 *two years, but not more than three years, if the*
17 *Administrator determines that such assignment*
18 *is necessary to meet critical mission or program*
19 *requirements.*

20 “(5) *POLICIES AND PROCEDURES.*—

21 “(A) *IN GENERAL.*—*The Administrator*
22 *shall establish policies and procedures relating to*
23 *assignments under this subsection.*

1 “(B) *ELEMENTS.*—*Policies and procedures*
2 *established pursuant to subparagraph (A) shall*
3 *address the following:*

4 “(i) *The nature and elements of writ-*
5 *ten agreements with participants in assign-*
6 *ments under this subsection.*

7 “(ii) *Criteria for making such assign-*
8 *ments, including the needs of the Adminis-*
9 *tration relating thereto.*

10 “(iii) *How the Administration will*
11 *oversee such assignments, in particular with*
12 *respect to paragraphs (2)(A)(iii), (7)(C),*
13 *and (7)(D).*

14 “(iv) *Criteria for issuing waivers.*

15 “(v) *How expenses under paragraph*
16 *(2)(A)(ii) would be determined.*

17 “(vi) *Guidance for participants in*
18 *such assignments.*

19 “(vii) *Mission Directorate, Office, and*
20 *organizational structure to implement and*
21 *manage such assignments.*

22 “(viii) *Any other necessary policies,*
23 *procedures, or guidelines to ensure such as-*
24 *signments comply with all relevant statu-*
25 *tory authorities and ethics rules, and effec-*

1 *tively contribute to one or more of the Ad-*
2 *ministration's missions.*

3 “(C) *INHERENTLY GOVERNMENTAL ACTIVI-*
4 *TIES.—Assignments made under this subsection*
5 *shall not have responsibilities or perform duties*
6 *or decision making regarding Administration*
7 *activities that are inherently governmental, pur-*
8 *suant to subpart 7.500 of title 48, Code of Fed-*
9 *eral Regulations, and Office of Management and*
10 *Budget review.*

11 “(6) *STATUS OF FEDERAL EMPLOYEES ASSIGNED*
12 *TO PRIVATE SECTOR ENTITIES.—*

13 “(A) *IN GENERAL.—An employee of the Ad-*
14 *ministration who is assigned to a private sector*
15 *entity under this subsection shall be considered,*
16 *during the period of such assignment, to be on*
17 *detail to a regular work assignment in the Ad-*
18 *ministration for all purposes. The written agree-*
19 *ment established under paragraph (2)(A) shall*
20 *address the specific terms and conditions related*
21 *to such employee's continued status as a Federal*
22 *employee.*

23 “(B) *CERTIFICATION.—In establishing a*
24 *temporary assignment of an employee of the Ad-*
25 *ministration to a private sector entity, the Ad-*

1 *administrator shall certify that such temporary as-*
2 *signment shall not have an adverse or negative*
3 *impact on the mission of the Administration or*
4 *organizational capabilities associated with such*
5 *assignment.*

6 “(7) *TERMS AND CONDITIONS FOR PRIVATE SEC-*
7 *TOR EMPLOYEES.—An employee of a private sector*
8 *entity who is assigned to the Administration under*
9 *this subsection—*

10 “(A) *shall continue to receive pay and bene-*
11 *fits from the private sector entity from which*
12 *such employee is assigned and shall not receive*
13 *pay or benefits from the Administration, except*
14 *as provided in subparagraph (B);*

15 “(B) *is deemed to be an employee of the Ad-*
16 *ministration for the purposes of—*

17 “(i) *chapters 73 and 81 of title 5;*

18 “(ii) *sections 201, 203, 205, 207, 208,*
19 *209, 603, 606, 607, 643, 654, 1905, and*
20 *1913 of title 18, except that such section 209*
21 *does not apply to any salary, or contribu-*
22 *tion or supplementation of salary made*
23 *pursuant to subparagraph (A) of this para-*
24 *graph;*

1 “(iii) sections 1343, 1344, and 1349(b)
2 of title 31;

3 “(iv) the *Federal Tort Claims Act* and
4 any other *Federal tort liability statute*;

5 “(v) the *Ethics in Government Act of*
6 1978; and

7 “(vi) chapter 21 of title 41;

8 “(C) shall not have access to any trade se-
9 crets or any other nonpublic information which
10 is of commercial value to the private sector enti-
11 ty from which such employee is assigned;

12 “(D) may not perform work that is consid-
13 ered inherently governmental in nature, in ac-
14 cordance with paragraph (5)(C); and

15 “(E) may not be used to circumvent—

16 “(i) section 1710 of title 41, *United*
17 *States Code*; or

18 “(ii) any limitation or restriction on
19 the size of the Administration’s civil servant
20 workforce.

21 “(8) *ADDITIONAL REQUIREMENTS.—The Admin-*
22 *istrator shall ensure that—*

23 “(A) the normal duties and functions of an
24 employee of the Administration who is assigned
25 to a private sector entity under this subsection

1 *can be reasonably performed by other employees*
2 *of the Administration without the permanent*
3 *transfer or reassignment of other personnel of the*
4 *Administration;*

5 “(B) *normal duties and functions of such*
6 *other employees of the Administration are not, as*
7 *a result of and during the course of such tem-*
8 *porary assignment, performed or augmented by*
9 *contractor personnel in violation of section 1710*
10 *of title 41; and*

11 “(C) *not more than two percent of the Ad-*
12 *ministration’s civil servant workforce may par-*
13 *ticipate in an assignment under this subsection*
14 *at the same time.*

15 “(9) *CONFLICTS OF INTEREST.—The Adminis-*
16 *trator shall implement a system to identify, mitigate,*
17 *and manage any conflicts of interests that may arise*
18 *as a result of an employee’s assignment under this*
19 *subsection.*

20 “(10) *PROHIBITION AGAINST CHARGING CERTAIN*
21 *COSTS TO THE FEDERAL GOVERNMENT.—A private-*
22 *sector entity may not charge the Administration or*
23 *any other agency of the Federal Government, as direct*
24 *or indirect costs under a Federal contract, the costs*
25 *of pay or benefits paid by the entity to an employee*

1 *assigned to the Administration under this subsection*
2 *for the period of the assignment concerned.*

3 “(11) *CONSIDERATIONS.*—*In carrying out this*
4 *subsection, the Administrator shall take into consider-*
5 *ation—*

6 “(A) *the question of how assignments under*
7 *this subsection might best be used to help meet*
8 *the needs of the Administration with respect to*
9 *the training of employees; and*

10 “(B) *where applicable, areas of particular*
11 *private sector expertise, such as cybersecurity.*

12 “(12) *NASA REPORTING.*—

13 “(A) *IN GENERAL.*—*Not later than April 30*
14 *of each year, the Administrator shall submit to*
15 *the Committee on Science, Space, and Tech-*
16 *nology of the House of Representatives and the*
17 *Committee on Commerce, Science, and Transpor-*
18 *tation of the Senate a report summarizing the*
19 *implementation of this subsection.*

20 “(B) *CONTENTS.*—*Each report under sub-*
21 *paragraph (A) shall include, with respect to the*
22 *annual period to which such report relates, the*
23 *following:*

24 “(i) *Information relating to the total*
25 *number of employees of private sector enti-*

1 *ties assigned to the Administration, and the*
2 *total number of employees of the Adminis-*
3 *tration assigned to private sector entities.*

4 *“(ii) A brief description and assess-*
5 *ment of the talent management benefits evi-*
6 *denced from such assignments, as well as*
7 *any identified strategic human capital and*
8 *operational challenges, including the fol-*
9 *lowing:*

10 *“(I) An identification of the*
11 *names of the private sector entities to*
12 *and from which employees were as-*
13 *signed.*

14 *“(II) A complete listing of posi-*
15 *tions such employees were assigned to*
16 *and from.*

17 *“(III) An identification of as-*
18 *signed roles and objectives of such as-*
19 *signments.*

20 *“(IV) Information relating to the*
21 *durations of such assignments.*

22 *“(V) Information relating to asso-*
23 *ciated pay grades and levels.*

1 “(iii) *An assessment of impacts of such*
2 *assignments on the Administration work-*
3 *force and workforce culture.*

4 “(iv) *An identification of the number*
5 *of Administration staff and budgetary re-*
6 *sources required to implement this sub-*
7 *section.*

8 “(13) *FEDERAL ETHICS.—Nothing in this sub-*
9 *section shall affect existing Federal ethics rules appli-*
10 *cable to Federal personnel.*

11 “(14) *GAO REPORTING.—*

12 “(A) *IN GENERAL.—Not later than three*
13 *years after the date of the enactment of this sub-*
14 *section, the Comptroller General of the United*
15 *States shall submit to the Committee on Science,*
16 *Space, and Technology of the House of Rep-*
17 *resentatives and the Committee on Commerce,*
18 *Science, and Transportation of the Senate a re-*
19 *port summarizing the implementation of this*
20 *subsection.*

21 “(B) *CONTENTS.—The report under sub-*
22 *paragraph (A) shall include the following:*

23 “(i) *A review of the implementation of*
24 *this subsection, according to law and the*
25 *Administration policies and procedures es-*

1 *established for assignments under this sub-*
2 *section.*

3 “(ii) *Information relating to the extent*
4 *to which such assignments adhere to best*
5 *practices relating to public-private talent*
6 *exchange programs.*

7 “(iii) *A determination as to whether*
8 *there should be limitations on the number of*
9 *individuals participating in such assign-*
10 *ments.*

11 “(iv) *Information relating to the extent*
12 *to which the Administration complies with*
13 *statutory requirements and ethics rules, and*
14 *appropriately handles potential conflicts of*
15 *interest and access to nonpublic informa-*
16 *tion with respect to such assignments.*

17 “(v) *Information relating to the extent*
18 *to which such assignments effectively con-*
19 *tribute to one or more of the Administra-*
20 *tion’s missions.*

21 “(vi) *Information relating to Adminis-*
22 *tration resources, including employee time,*
23 *dedicated to administering such assign-*
24 *ments, and whether such resources are suffi-*
25 *cient for such administration.”.*

1 **SEC. 813. REPORT ON SPACE ACT AGREEMENTS.**

2 (a) *IN GENERAL.*—Not later than 180 days after the
3 date of the enactment of this Act, the Administrator shall
4 submit to the appropriate committees of Congress a report
5 describing the following:

6 (1) *Intellectual property considerations in Space*
7 *Act agreements.*

8 (2) *Feedback shared by industry groups regard-*
9 *ing intellectual property considerations in Space Act*
10 *agreements.*

11 (3) *Differences between NASA policies regarding*
12 *intellectual property in Space Act agreements and*
13 *policies utilized in similar situations by other Federal*
14 *agencies.*

15 (b) *DEFINITION.*—In this section, the term “Space Act
16 agreements” means agreements entered into by NASA pur-
17 suant to its authorities under the National Aeronautics and
18 Space Act of 1958 (Public Law 85–568).

19 **SEC. 814. MENTORING.**

20 (a) *IN GENERAL.*—The Administrator shall establish
21 a comprehensive NASA-wide mentoring program for early-
22 career, mid-level, and senior-level employees at all NASA
23 Centers and NASA Headquarters to ensure a robust pipe-
24 line for NASA’s civil servant workforce and support the
25 preparation of employees, including those from populations

1 *that are historically underrepresented in STEM, for pro-*
2 *motion and leadership roles.*

3 (b) *BRIEFING.*—*Not later than 180 days after the date*
4 *of the enactment of this Act, the Administrator shall brief*
5 *the appropriate committees of Congress on the implementa-*
6 *tion of the subsection (a).*

7 **SEC. 815. DRINKING WATER WELL REPLACEMENT FOR**
8 **CHINCOTEAGUE, VIRGINIA.**

9 (a) *IN GENERAL.*—*Notwithstanding any other provi-*
10 *sion of law, the Administrator may enter into an agree-*
11 *ment, as appropriate, with the Town of Chincoteague, Vir-*
12 *ginia, for a period of up to five years, for reimbursement*
13 *of the Town of Chincoteague’s costs directly associated with*
14 *the development of a plan for removal of drinking water*
15 *wells currently situated on NASA-administered property*
16 *and the establishment of alternative drinking water wells*
17 *which are located on property under the administrative*
18 *control, either through lease, ownership, or easement, of the*
19 *Town of Chincoteague. Such agreement shall, to the extent*
20 *practicable, include the three remaining wells to be removed*
21 *and relocated, the location of the site to which such wells*
22 *would be relocated or are planned to be relocated, and a*
23 *current estimated cost of the relocation, including for the*
24 *purchase, lease, or use of additional property, engineering,*
25 *design, permitting, and construction.*

1 (b) *SUBMISSION TO CONGRESS.*—Not later than 18
2 months after the date of the enactment of this Act, the Ad-
3 ministrator, in coordination with the heads or other appro-
4 priate representatives of relevant entities, shall submit to
5 the appropriate committees of Congress the agreement under
6 subsection (a).

7 **SEC. 816. RULE OF CONSTRUCTION.**

8 Nothing in this Act may be construed to limit the abil-
9 ity of a NASA employee to discuss scientific research per-
10 formed by such employee in accordance with NASA's sci-
11 entific integrity policies.

Union Calendar No. 595

118TH CONGRESS
2^D Session

H. R. 8958

[Report No. 118-701]

A BILL

To reauthorize the National Aeronautics and Space
Administration, and for other purposes.

SEPTEMBER 23, 2024

Reported with an amendment, committed to the Com-
mittee of the Whole House on the State of the Union,
and ordered to be printed
