To require the Secretary of Energy to establish a program to promote the use of artificial intelligence to support the missions of the Department of Energy, and for other purposes.

IN THE SENATE OF THE UNITED STATES

JULY 10, 2024

Mr. MANCHIN (for himself and Ms. MURKOWSKI) introduced the following bill; which was read twice and referred to the Committee on Energy and Natural Resources

A BILL

To require the Secretary of Energy to establish a program to promote the use of artificial intelligence to support the missions of the Department of Energy, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Department of Energy
5 AI Act”.

6 **SEC. 2. FINDINGS.**

7 Congress finds that—

1 (1) the Department has a leading role to play
2 in making the most of the potential of artificial in-
3 telligence to advance the missions of the Department
4 relating to national security, science, and energy (in-
5 cluding critical materials);

6 (2) the 17 National Laboratories employ over
7 40,000 scientists, engineers, and researchers with
8 decades of experience developing world-leading ad-
9 vanced computational algorithms, computer science
10 research, experimentation, and applications in ma-
11 chine learning that underlie artificial intelligence;

12 (3) the NNSA manages the Stockpile Steward-
13 ship Program established under section 4201 of the
14 Atomic Energy Defense Act (50 U.S.C. 2521),
15 which includes the Advanced Simulation and Com-
16 puting program, that provides critical classified and
17 unclassified computing capabilities to sustain the nu-
18 clear stockpile of the United States;

19 (4) for decades, the Department has led the
20 world in the design, construction, and operation of
21 the preeminent high-performance computing systems
22 of the United States, which benefit the scientific and
23 economic competitiveness of the United States
24 across many sectors, including energy, critical mate-
25 rials, biotechnology, and national security;

1 (5) across the network of 34 user facilities of
2 the Department, scientists generate tremendous vol-
3 umes of high-quality open data across diverse re-
4 search areas, while the NNSA has always generated
5 the foremost datasets in the world on nuclear deter-
6 rence and strategic weapons;

7 (6) the unrivaled quantity and quality of open
8 and classified scientific datasets of the Department
9 is a unique asset to rapidly develop frontier AI mod-
10 els;

11 (7) the Department already develops cutting-
12 edge AI models to execute the broad mission of the
13 Department, including AI models of the Department
14 that are used to forecast disease transmission for
15 COVID–19, and address critical material issues and
16 emerging nuclear security missions;

17 (8) the AI capabilities of the Department will
18 underpin and jumpstart a dedicated, focused, and
19 centralized AI program; and

20 (9) under section 4.1(b) of Executive Order
21 14110 (88 Fed. Reg. 75191 (November 1, 2023))
22 (relating to the safe, secure, and trustworthy devel-
23 opment and use of artificial intelligence), the Sec-
