IN THE HOUSE OF REPRESENTATIVES

JULY 25, 2025

Ms. SCANLON (for herself, Mr. BACON, Mr. CASTEN, Mrs. CHERFILUS-McCORMICK, Mr. CLEAVER, Ms. MOORE of Wisconsin, Mr. NUNN of Iowa, Ms. SEWELL, Mr. VEASEY, Ms. WILLIAMS of Georgia, and Mr. LARSON of Connecticut) introduced the following bill; which was referred to the Committee on Ways and Means

A BILL

To support the establishment or expansion and operation of programs using a network of public and private community entities to provide mentoring for children and youth with experience in foster care.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Foster Youth Men-
5 toring Act of 2025”.

6 **SEC. 2. FINDINGS.**

7 Congress makes the following findings:

1 (1) Positive relationships are important for chil-
2 dren and youth. An estimated 20 percent of youth
3 do not have caring adults in their lives, representing
4 8,500,000 youth. Children who have a positive car-
5 ing relationship with an adult can also benefit from
6 additional positive relationships.

7 (2) Research shows that mentors make a dif-
8 ference in young people's lives. At-risk youth who
9 have mentors are 55 percent more likely to enroll in
10 college. Students who meet regularly with their men-
11 tors are 52 percent less likely than their peers to
12 skip a day of school. Youth who have mentors are
13 also 75 percent more likely to hold a leadership posi-
14 tion in a club or sports team.

15 (3) Young people that have mentors have im-
16 proved relationships with adults, fewer disciplinary
17 referrals, and more confidence in achieving their
18 goals.

19 (4) In 2021, 391,311 youth were in foster care.
20 Of those youth, 86,793 were between the ages of 11
21 and 15, and 55,396 were between the ages of 16 and
22 20.

23 (5) Mentoring programs that serve foster youth
24 are unique and require additional considerations, in-
25 cluding specialized training and support necessary to

1 provide for consistent, long-term relationships for
2 children in foster care.

3 (6) Mentoring programs can be used as an ef-
4 fective strategy to support positive outcomes for fos-
5 ter youth, such as improved mental health, reduc-
6 tions in substance misuse, and increased life satis-
7 faction. Additionally, mentoring relationships are as-
8 sociated with supporting fewer placement changes
9 for youth and improved use of transition services
10 when exiting foster care.

11 (7) Mentoring programs targeting youth experi-
12 encing multiple risk factors, community-based pro-
13 grams, and programs lasting 1 year or more are
14 more effective in supporting youth in foster care.

15 (8) Mentored youth showed lower rates of in-
16 volvement in the juvenile justice system and lower
17 rates of involvement in the legal system as adults.

18 (9) Increasing evidence is showing that peer
19 mentoring and support can be very effective in en-
20 gaging young people. Alumni of and youth in foster
21 care have noted the importance of the support and
22 service delivery by individuals with lived experience,
23 including peers.
