The Fall Gun Bash will coincide with the launch of **FOAC-ILLEA**, which is the sister organization to FOAC-PAC, and is a 501c4 organization.

It is through the dedicated work of FOAC volunteers that our Gun Bashes have been so successful.

**We need volunteers to help with the October Bash. There are many areas for which to volunteer. If you want to help out send an email to [info@foacpac.org](mailto:info@foacpac.org)**

### 7. Current Issues & Activist Efforts:

**7.1 Disarm Americans, Arm and Empower America's Enemies** – The Biden Administration continues to aggressively promote legislation and other tactics which are essentially aimed at disarming law abiding Americans. For example, in the midst of the ammo shortage facing Americans, the Biden Administration has banned the importation of Russian guns and ammo to begin on Sept 7<sup>th</sup>. <https://foac-pac.org/Biden-Bans-Russian-Ammo-Amid-Continuing-Shortage/News-Item/12686> To view the extensive and exhaustive Biden gun control plan see this link <https://joebiden.com/gunsafety/> This administration is obsessed with not allowing normal Americans to own firearms. One of the Biden administration's

platitudes is “Keep Guns Out of Dangerous Hands.” The dangerous hands implied here are the hands of law abiding Americans and it obviously does not include foreign terrorist organizations such as the Taliban. The Biden administration has delivered **85 BILLION** dollars of sophisticated weaponry and high-tech equipment into the (extremely dangerous) hands of the Taliban terrorists as a result of the manner of the pullout from Afghanistan.. This is sufficient to arm every terrorist group in the world for decades. . This equipment was paid for by American taxpayers. Article 3 of the US Constitution defines treason as levying war against the United States or giving aid and comfort to our enemies. However, the way the Biden administration’s actions are being handled by the media and government brings to mind the title of John Stormer’s book “None Dare Call It Treason.” taken from the quote by John Harrington “Treason doth never prosper, what's the reason? For if it prosper, none dare call it Treason”.

This administration has made it clear that the biggest threat is from “right wing domestic terrorists (those who support the Constitution and voted for Trump) and not from foreign born terrorists. This flies in the face of reality. A list of equipment now in the hands of the Taliban includes:

-2,000 Armored Vehicles Including Humvees and MRAP’s

-75,989 Total Vehicles: FMTV, M35, Ford Rangers, Ford F350, Ford Vans, Toyota Pickups, Armored Security Vehicles, etc.

-50 MD530G Scout Attack Choppers

-ScanEagle Military Drones

20mm Gatling Guns and Ammunition

-61,000 M203 Rounds

-Large Stockpile of Plate Carriers and Body Armor

**-US Military HIIDE, for Handheld Interagency Identity Detection Equipment Biometrics**

-Lots of Heavy Equipment Including Bull Dozers, Backhoes, Dump Trucks, Excavators

In addition, the Taliban now have US Military ID printing equipment that prints the standard ID card for uniformed services, contractors, reserves, and DOD civilian employees. These are used to provide access to controlled spaces as well access to DOD computer systems. Drone jamming equipment which can be used to jam US drones and laser aimed devices such as bombs, are now in Taliban hands.

<https://haltturnerradioshow.com/index.php/en/news-page/news-nation/u-s-leaves-behind-85-billion-in-military-weapons-and-equipment-all-grabbed-by-taliban-in-afghanistan>

Is this egregious blundering incompetence or is it a calculated plan to further the weakening of America and strengthen our enemies?

**7.1.1 Office of Naval Intelligence to Active and Retired Service Members** – ONI reminds uniformed and retirees that under Article 88 of the Uniform Code of Military Justice and Department of Defense Directive 1344.10. that they cannot condemn President Joe Biden amid the chaotic — and now deadly — pullout of American troops from Afghanistan. “Namely, uniformed personnel and military retirees are prohibited from disrespecting senior government leadership (e.g. the President, Vice President, Congress, Secretary of Defense, Service Secretaries, etc.)” <https://www.dailywire.com/news/exclusive-active-duty-retired-naval-intelligence-members-told-they-cannot-disrespect-biden-over-afghanistan-debacle> Compare this to the attitude displayed towards President Trump, while he was a sitting President during the race-based identity politics seminars given to military personnel, a description of which follows below.

**7.1.2 20 Years Since 911 and the Irony** – Saturday 9/11/2021 was 20 years since the attack on the US. It is a time reflect on the memory of all those who helped and many who lost their lives doing so. On 9/12/01 the country came together – we were all Americans. It is also a time to reflect on where we have come and the significant divide that exists today due to the aggressive efforts of those working to take down our Great Republic – the City on the Hill, a Beacon for Freedom for all. It is most ironic as we remember the attack on our country 20 years ago by foreign terrorists that at the same time the Biden administration has armed a terrorist organization that we were fighting a war against, with 85 million dollars of weaponry and equipment making it the most powerful terrorist organization in the world.

**7.2 Critical Race Theory Poisoning and Weakening Our Military** – Dr King’s dream was that people would be judged not by the color of their skin but by the quality of their character. CRT, on the contrary, views everything through the lens of race – all reality is reduced to skin color. CRT’s goal has nothing to do with improving the relationships between ethnicities and racial groups. It is a Marxist bludgeon that is being used to divide and agitate in order to destroy the foundations of the American Republic and our Freedom. It is wildly rampant in schools – at all levels, in corporations, in government and in the military. Recently a Duquesne Psychology Professor stated that white people should commit suicide as an ethical act. [https://www.wnd.com/2021/09/prof-white-people-commit-suicide-ethical-act/?utm\\_source=Email&utm\\_medium=wnd-breaking&utm\\_campaign=breaking&utm\\_content=breaking&ats\\_es=633849b90dc79b845ba76ff7b0ceb0db](https://www.wnd.com/2021/09/prof-white-people-commit-suicide-ethical-act/?utm_source=Email&utm_medium=wnd-breaking&utm_campaign=breaking&utm_content=breaking&ats_es=633849b90dc79b845ba76ff7b0ceb0db) This clearly has created a collective delusional psychosis which has severed much of the populations’ ties with reality. We need to stand strong on our beliefs, values, and true history in the midst of this insanity which surrounds us – much of this is expressed in our Founding documents.

A good resource on the seriously destructive effects of CRT in the military is **“Irresistible Revolution – Marxism’s Goal of Conquest and the Unmaking of the American Military.”** (Matthew Lohmeier). Our soldiers have a history of unity. All ethnicities, races, religions they all wear one uniform and function as a unit in support of each other to complete their mission. Marxism creates division which breeds anger, resentment and hate. This is how they dismantle and topple governments. Our Republic is being attacked on many fronts. Currently it is in the phase of what Marx describes as a “veiled” or “cold” civil war. It is a state of domestic, social and political hostility that stops short of open warfare. It is called veiled because its reality still remains elusive to many people. It is surprising, for example, how

**Notice:** Video, photographic and audio recordings of FOAC meetings are prohibited without prior expressed or written approval from the FOAC **OIC**. Photographs are permitted for “personal”, non-commercial, non-political use ONLY when authorized by the FOAC OIC& all parties in the photograph.

most of our elected officials function as “politics as usual” amidst this aggressive destruction. According to Marx this “veiled” civil war rages within society until it breaks out into open violent revolution. This, however, may not be necessary here, as much of the population, having absolutely no concept of the evil they are really supporting are in Huxley’s terms “learning to love their servitude.”

On pages 26-27 Lohmeier describes videos that all military professionals on the base were required by base leadership to watch. The videos, following the 1619 Project, portrayed American history as 400 years of “white supremacy” and that the US Constitution simply codified a racist social order. The videos also vilified Republican politicians, including President Trump who was President and Commander in Chief. Democrats including Obama and the Clintons were glorified as was Abdullah the Marxist activist who founded BLM. What happened to the oaths of office to protect and defend the Constitution and what happened to Article 88 mentioned above where active and retired military are prohibited from disrespecting government leadership??? This is having a destructive effect on the military as those personnel critical of crt do not want to be part of a military which calls them racist simply on the color of their skin. On the other hand, those who accept crt do not want to be part of a military that is racist and suppresses them. Not only is this demoralizing but it is having the effect of many leaving at the first opportunity. This is effectively weakening our military.

**7.3 Taliban and Joe Biden Agree – Civilians Don’t Need Firearms** - Teams of Taliban terrorists started going door-to-door searching for our former allies, young girls and, of course, personally owned firearms. Our allies were disappeared. Their fate was sealed. Some have been shot, hung and beaten to death. Their bodies usually turn up on a dusty road several days after they were taken for their families to bury. The girls — including many under 12 — are forced to marry Taliban terrorists. That’s rape. Today, the streets are completely devoid of females of any age. All personal weapons the terrorists find are confiscated. Anyone who balks receives the Taliban’s usual response to its critics: 7. 62x39mm. The Taliban justified their weapon confiscation policy by claiming people no longer need firearms for personal protection, a Taliban official said. “We understand people kept weapons for personal safety. They can now feel safe. We are not here to harm innocent civilians,” The Taliban are not the first gun-grabbers to cite need as a reason for firearm confiscation. Joe Biden has been citing it nearly every time he mentions guns:” <https://foac-pac.org/The-Taliban-And-Joe-Biden-Agree-Civilians-Don%E2%80%99t-Need-To-Own-Firearms/News-Item/12678>

History has shown that firearm confiscation by government is a necessary step to genocide. RJ Rummel has extensively researched Government mass murder and genocide since 1900. He calls this democide. His book is “**Death by Government.**” (1997) He shows that since 1900 212 million people were killed by their governments. His updated figures show closer to 300 million. JPFO shows that in this history of genocide before the government killings could take place the people were disarmed. This is documented in Zelman’s and Steven’s book “Death by Gun Control.” as well in the JPFO video Innocents Betrayed <https://www.youtube.com/watch?v=5dVfo2Mg8Bg> This simple truth is armed people fight back unarmed people don’t. JPFO’s Genocide chart is at this link <http://jpfo.org/filegen-a-m/deathgc.htm#chart> The importance of our Second Amendment and our RTKBA simply cannot be overstated!

**7.4 Who Murdered Ashley Babbitt?** - It can be reported with accuracy that the Capitol Police Officer who murdered Ashley Babbitt on January 6 is one Lt. Michael L. Byrd, an officer with a troubling record of bumbling and violations. <https://flagandcross.com/identity-and-troubled-record-of-capitol-cop-who-murdered-ashley-babbitt-revealed/> Byrd a Black Capitol Police Officer was completely exonerated by the federal government as the Biden administration has officially closed the investigation. In a tv news interview Byrd stated

**Notice:** Video, photographic and audio recordings of FOAC meetings are prohibited without prior expressed or written approval from the FOAC OIC. Photographs are permitted for “personal”, non-commercial, non-political use ONLY when authorized by the FOAC OIC& all parties in the photograph.

that his action (the murder of an unarmed decorated Air Force Veteran who was no immediate lethal threat) saved countless lives. Byrd was the only one who fired a shot in the 6 hours of the capitol event and Babbitt was the only one who died by homicide. When Progressive radicals stormed into the state capitols of Iowa, Wisconsin, and Georgia, none of them were shot. When left-wing protesters tried to break down the door to the SCOTUS while Bret Kavanaugh was sworn in, no one was shot. Antifa and BLM thugs riot, murder, burn, loot, and assault in Portland, Seattle, Minneapolis, and Brooklyn Center MN, without the media calling them ‘terrorists’ and demanding incarceration or death. There’s a two-tiered system of justice in America: One for Dems and one for everyone else. <https://sfcmac.com/capitol-cop-who-murdered-ashli-babbitt-identified-as-michael-leroy-byrd/> Babbitt’s family has begun a civil suit against the Capitol Police. Some internet sites have cropped up maintaining that Babbitt’s murder was a false flag and she is still alive. There is no evidence that supports this.

**7.4.1 FBI January 6 Investigation: No Major Conspiracy** - After months of maintaining a narrative that the January 6 “insurrection” — involving little more than criminal trespass — was a “coordinated attack,” the FBI now admits there is “scant evidence” to support that claim. According to a report citing four current and former law-enforcement officials, the FBI does not believe the events of January 6 were centrally coordinated by a right-wing conspiracy of Trump supporters. <https://thenewamerican.com/january-6-fbi-investigation-no-major-conspiracy/>

**7.5 The Police/Government Agencies Have No Legal Obligation to Protect Individuals. Is this a bad thing?** – Courts have historically ruled that police officers and government agencies have no obligation to protect individuals. Their domain, instead, is the public in general. The only exception to this is if a “special relationship” exists such as, for example, the individual is a cooperating witness. Some examples of court decisions include the following. Warren v District of Columbia 1981 – DC Court of Appeals – ruled “the duty to provide public services is owed to the public at large, and, absent a special relationship between the police and an individual, no specific legal duty exists”. [https://en.wikipedia.org/wiki/Warren\\_v.\\_District\\_of\\_Columbia](https://en.wikipedia.org/wiki/Warren_v._District_of_Columbia) In DeShaney v Winnebago County 1989 involved a case in which the County Dept of Social Services placed a child with a parent who ended up physically abusing him and the child died. SCOTUS ruled that a state or county agency does not have an obligation to prevent individual child abuse. [https://en.wikipedia.org/wiki/DeShaney\\_v.\\_Winnebago\\_County](https://en.wikipedia.org/wiki/DeShaney_v._Winnebago_County) Castle Rock v Gonzales 2005. Another SCOTUS decision is when the court ruled that a town and its police department could not be sued for failing to enforce a restraining order which had led to the murder of a woman's three children by her estranged husband. [https://en.wikipedia.org/wiki/Town\\_of\\_Castle\\_Rock\\_v.\\_Gonzales](https://en.wikipedia.org/wiki/Town_of_Castle_Rock_v._Gonzales)

A comprehensive coverage of decisions by State can be found in Richard Stevens Book “Dial 911 and Die.” While each one of these cases involved tragic circumstances and one could debate upon the verdict, a critically important question is should the legal responsibility of the police or government be otherwise and should they be legally bound to protect each individual? Or would might even ask would we even want it to be otherwise.?

Many people have become foolishly dependent on the idea that the government will protect them. Gun grabbers decry the idea of wanting individuals to own a firearm to protect oneself and family – that’s the government’s and trained professionals’ job – and consequently they aggressively work to strip us of our RTKBA. This perspective seriously departs from reality. There is much more to this than just the court decisions. Average police response time is 5-10 mins. This can vary significantly depending on exigent circumstances or location and response time can end up being several hours or even days. Crimes/assaults happen within seconds and police arrive eventually to take info, investigate, mark where the body is and begin clean up. How many individuals are there and how many police officers? In 2019 there were 697,195 state and county police officers – not all are on duty at the same

**Notice:** Video, photographic and audio recordings of FOAC meetings are prohibited without prior expressed or written approval from the FOAC OIC. Photographs are permitted for “personal”, non-commercial, non-political use ONLY when authorized by the FOAC OIC& all parties in the photograph.

time. In 2020 the USA population was 331,449,281. Do the math – what we would be asking of our police officers is in reality a physical impossibility and anyone who believes otherwise is frankly delusional! It can clearly be seen given these statistics that holding leo's legally responsible for individual protection would result in massive failures and consequently massive lawsuits which would bankrupt police department budgets. Police are clearly not everywhere. Would we really want to live in a country in which it would be otherwise where there is a pervasive police presence for the illusion of safety???

**7.5.1 2020-21 Firearm Ownership** – One of the positive results of the almost 2 years of chaos is that many individuals have begun to realize that the government cannot protect them and they are in fact their own and their family's first responders. According to FBI data, firearm sales since 1999 (9,183,123) have steadily risen and the combined total up to the present has been 400 million. In 2019 figures were 28,369,750 and in 2020 they increased to 39,695,315. At least 20 percent of the almost forty million sales last year are first time firearm owners, woman and people of color. In our own state of Pa data showed 863,292 sales, It is interesting that in Illinois sales were the highest of all states 6.707.482. <https://247wallst.com/consumer-products/2021/04/05/gun-sales-reach-record-4-7-million-heres-every-state-ranked/> While many of us already realize reality, in the last almost two years many others have also realized what we have known – Personal Protection is an individual responsibility. It is an unalienable right that is ours and we would never surrender it to a government.

**7.6 Chipman Nomination Withdrawn** – The Whitehouse has withdrawn David Chipman's name for consideration as the Director of ATF. <https://www.nationalreview.com/news/white-house-expected-to-withdraw-atf-nominee-chipman-report/> As discussed in previous meetings Chipman was an avid gun control advocate, whose recent position had been as a consultant to one of the nations gun grabber organizations. His nomination faced criticism not only from Republicans but from moderate Democrats – Shumer simply could not get the votes. The Whitehouse has said they are in discussions of finding him another role in the administration.

**8. Training Tips. Safety and Self Defense in a New Society-** Is assuming a formal stance, taking time to align sights correctly and discharging a round at a paper bullseye good practice for defensive shooting. In this month's training tip, Dr. Ed Bogats FOAC BOD, 10-year Director of Safety/Security and Campus Police, CCAC and Lead Trainer/Owner (29 years) of EJC Security Services and 40 years in law enforcement, will discuss: Marksmanship and Defensive shooting – Each has its place. What are some defensive drills that can be used on the range to help improve self-protection skills?

## 9. Media and Events:

**9.1 FOAC OP-ED to Morning Call Article** – The Morning Call published an article by Cease Fire criticizing the Constitutional Carry Bills in the Pa legislature. The article primarily was a description of the author's feelings with no supportive data. Statements made included misinformation as well as lies about gun ownership. <https://www.mcall.com/opinion/mc-opi-pennsylvania-concealed-carry-bill-wilson-20210814-d2bpi4quufgobhab7my3pvemsu-story.html> Kim submitted a request to provide a response to this article and was told he could submit one. Kim and Clint Macro worked together to compose an op-ed to submit to the Morning Call which provided accurate factual information about Constitutional Carry and the Pa legislation. The op-ed was published – which included a good picture of Kim as well :<https://www.mcall.com/opinion/mc-opi-license-carry-firearms-stoffer-20210827-bdpgfn4aja5g2rd652kpraxegr4-story.html>

**9.1.2 The Kellerman Study 1993** – The Cease Fire author states that the “widely published” study by Kellerman in 1993 made an enormous impression on her.

<https://www.nejm.org/doi/full/10.1056/nejm199310073291506> It has been widely published – that is in gun grabber circles as the classical evidence that owning a firearm puts a person at risk. The authors of this study claimed their “scientific research” proved that defending oneself or one’s family with a firearm in the home is dangerous and counterproductive, claiming “a gun owner is 43 times more likely to kill a family member than an intruder.” The data involved a case sample of 444 homicides and a 388-control group. Information was obtained by asking relatives as the victim was deceased. This research is a classic example of the biased research on which the CDC has squandered taxpayer’s money. This has been accurately characterized as Kellerman’s “43 times fallacy” for gun ownership by Dr Suter, chair of the Doctors for Integrity in Policy Research. <https://fee.org/articles/the-tainted-public-health-model-of-gun-control/> Numerous criticisms by other researchers have shown the statistical errors and flawed research in this study that simply do not support the authors conclusions. A summary of the problems can be found on FOAC website <https://foac-pac.org/Critiquing-the-Research-Criticizing-Guns/News-Item/4150> It is pointed out the study picked 3 violent crime ridden urban neighborhoods, did not even determine whether the firearms were owned by the householders or others, never considered that owning firearms for protection is different than owning them for assault, and when requested never released their raw data for review. Kates et al have an excellent review of biased anti-gun public health research as well as a detailed analysis of Kellerman’s study in comprehensive article GUNS AND PUBLIC HEALTH: EPIDEMIC OF VIOLENCE OR PANDEMIC OF PROPAGANDA? The Kellerman research although widely published in public health “would be more appropriately cited in a statistics text as a cautionary example of multiple statistical errors.” The Kellerman study is dealt with beginning on page 56. <https://constitution.org/1-Constitution/2II/2ndschol/58tenn.pdf> John Lott has also taken issue with Kellerman pointing to the many problems which undercut the misleading impression that victims were killed by the gun in the home. They fail to report that in only 8 of the 444 homicides studied was it determined that the gun involved had been kept in the home. In other words all or virtually all the victims were killed by guns brought into the home by intruders Counting only the deaths ignores the much larger effective defensive gun uses that do not require the gun to be fired, there by seriously underestimating the effectiveness of defensive gun use by law abiding individuals. Lott also states that the case sample method was inappropriate as it was not designed to study social issues. (More Guns Less Crime 3<sup>rd</sup> Ed Lott 2010) A extremely detailed technical analysis of the serious problems in Kellermans study by Richard Stevens (Disarming the Data Doctors: How to Debunk the "Public Health" Basis for "Gun Control" 1996) can be found at this link <http://jpfo.org/filegen-a-m/doctors-epidemic.htm>

## 10. Legislation:

**10.1 Pa Legislation:** The Pa General Assembly adjourned for the summer without passing the critical Pro-gun bills, Strengthening Preemption and Constitutional Carry. None of the anti-gun bills saw any movement. No gun control bill should ever see any movement in Pa since the R’s maintain the majority in both Houses. Attention of the General Assembly has been focused on the budget, which was passed on June 25<sup>th</sup>. The Pa House will reconvene on September 27<sup>th</sup> and the Pa Senate on September 20<sup>th</sup>.
