

We want your money to help promote an agenda of lies to strip the Liberties of Law Abiding Citizens

When acts of violence occur where a firearm is not involved we do not talk about that because it doesn't promote our agenda of lies to strip the Liberties of Law Abiding Citizens. We are not interested in addressing the cause of the "culture of violence" and criminal activity that is at the root of all violence. We don't acknowledge when Law Abiding Armed Citizens defend themselves from violent attackers, and we refuse to criticize the Government when they fail to prosecute violent career criminals for violating the current firearm laws.

CeaseFirePA

We need your help.

As we approach the close of our Fiscal Year on June 30, we are busier than ever. In the last week, we have brought together community partners in Philadelphia following a weekend of horrific gun violence, as well as in Allentown following a mass shooting at a nightclub. We've been working with our partners to fight a dangerous bill that is a Trojan Horse to allow the arming of teachers. We remain vigilant in the fight against the Sue Our Cities Bill. And in the past few weeks, we've brought high school students and trauma doctors from across PA to the Capitol.

All this in the closing weeks of our Fiscal Year! But that's nothing new. So far this year, we've been in dozens of schools, worked with close to 20 groups of medical providers, and taken hundreds of Pennsylvanians to meet with their legislators. We've been present at community meetings across the Commonwealth, all aimed at providing the information, knowledge and confidence to folks who want to become advocates for a safer PA.

We believe that Law Abiding Citizens can not be trusted to protect your children so we would rather endorse "gun free zones" and empower criminals who want to commit horrible acts of evil by providing THEM a safe place to murder your children.

We offer free transportation, brightly colored t-shirts, and food to people from all over the country to hold signs and pretend to be Citizens of PA.

We believe that a "safer" PA is one where Law Abiding Citizens are unable to exercise their rights and defend themselves against criminals who don't obey the law.

We want criminal Elected Officials to be able defy the laws of the Commonwealth of PA and violate the Rights and Liberties of Law Abiding Citizens without consequence. We feel that these Elected Officials are immune to the law and therefore should be able to pick and choose which laws to obey.
